READINESS AND ENVIRONMENTAL  
PROTECTION INTEGRATION PROGRAM

## 2024 REPI WEBINAR SERIES SCHEDULE

Join the REPI Program for the 2024 webinar series to learn about program initiatives, projects, and partnerships that protect the environment, enhance military installation resilience, and ensure military readiness.

All webinars begin at **1:00 PM** Eastern Standard Time unless otherwise noted. For detailed webinar descriptions and connection instructions, please visit [www.REPI.mil/Resources/Webinars/](http://www.REPI.mil/Resources/Webinars/).

### 2024 REPI CHALLENGE PROJECT SPOTLIGHT

For the 13<sup>th</sup> consecutive year, the REPI Program hosted the annual REPI Challenge, a competition with dedicated funding to advance REPI project outcomes through large-scale innovation and conservation. By distributing funds across 17 projects, the 2024 REPI Challenge is advancing efforts that preserve key mission capabilities of strategic importance to the DOD and enhance installation and range resilience to climate change and severe weather events. Join the REPI Program to learn more about the 2024 REPI Challenge projects and hear presentations from various project recipients.

### PURSUING COMPLEMENTARY RESILIENCE FUNDING OPPORTUNITIES

The REPI Program safeguards military missions through cost-sharing agreements involving the Military Services, Federal agencies, state and local governments, and private conservation organizations. In addition to this, REPI funds serve as a non-federal match for any federal conservation or resilience program. Join the REPI Program to learn about complementary funding opportunities that can be leveraged to protect the environment, enhance military installation resilience, and ensure military readiness. During this webinar, presenters will provide an overview of various funding opportunities and offer best practices and tips on pursuing and writing successful funding proposals.

### 2024 REPI REPORT TO CONGRESS

The annual REPI Report to Congress provides installations and partners with a snapshot of the REPI Program's accomplishments across the fiscal year. While the contents of the Report to Congress change every year, the report consistently shares updated project funding information, Sentinel Landscape Partnership updates, and REPI Project examples. Join the REPI Program to learn about the REPI Program's Fiscal Year 2023 accomplishments and project examples in the 2024 Report to Congress.

### FY 2025 REPI CHALLENGE HELP SESSION

The REPI Program is pleased to release the Fiscal Year (FY) 2025 REPI Challenge Request for Proposals. The primary focus of the 2025 REPI Challenge is on advancing efforts that preserve key mission capabilities of strategic importance to the Department of Defense and enhance installation and range resilience to climate change and severe weather events. During this informational webinar, participants will hear directly from the REPI Office about the goals and objectives of the FY 2025 REPI Challenge Request for Proposals and can ask questions. Join the REPI Program to hear more about the REPI Challenge process.

2024 REPI WEBINAR SERIES SCHEDULE

WEDNESDAY

24 JUL

## 2024 DESIGNATION CYCLE SENTINEL LANDSCAPES SPOTLIGHT\*

The Sentinel Landscapes Partnership is thrilled to announce newly designated landscapes from the 2024 Sentinel Landscape Designation Cycle. This process, informed by ten years of lessons learned in building innovative connections between partners in conservation, working lands, climate resilience, and national defense, aims to set the stage for the next decade of impact in sentinel landscapes. Join the Sentinel Landscapes Partnership to learn about the newly designated landscapes. During this webinar, representatives from selected landscapes will explore their history, priorities, and alignment with the mission of the Sentinel Landscapes Partnership. Additionally, presenters will share best practices and insights on why they believe their applications were successful.

WEDNESDAY

09 OCT

## AICUZ AND REPI PARTNERSHIPS FOR ENHANCED LAND PROTECTION

The Air Installations Compatible Use Zone (AICUZ) program serves as one example of how REPI partnerships can be integrated with other DOD tools and strategies to enhance land protection, conservation efforts, and cost savings. Join the REPI Program to learn how air installations collaborate with local governments and communities through the AICUZ program to educate stakeholders about the air installation's mission. During this webinar participants will hear from speakers who will highlight the AICUZ program's objectives in developing land use recommendations that inform zoning decisions and local ordinances, crucially reducing the potential for accidents and mitigating noise impacts on communities.

11 DEC

## NAVIGATING MILITARY READINESS THROUGH RESPONSIBLE PROJECT EXECUTION

The REPI Program ensures responsible, sensitive, and collaborative project execution by aligning with regulatory requirements for environmental compliance, cultural preservation, and tribal consultations. Join the REPI Program and the Sentinel Landscapes Partnership to learn about projects that involve compliance with the National Environmental Policy Act, National Historic Preservation Act, and Tribal consultations to effectively balance military readiness with environmental stewardship and cultural preservation.
