

EGLIN AIR FORCE BASE

Located in the Florida Panhandle, Eglin Air Force Base (AFB) is the Air Force's largest installation and also includes extensive special use airspace to allow the base to carry out its test and evaluation mission.

That mission is increasing in importance as the base is host to Joint Strike Fighter training that requires the Air Force to fly at low levels into the Eglin range from Eglin Gulf Test and Training Range (EGTTR) airspace.

To guard against development pressures near future critical operating areas, Eglin AFB's partners are conserving large tracts of land located near and under the installation's airspace, as well as within important wildlife corridors. Part of an unprecedented partnership, the base is protecting land within the Northwest Florida Greenway, a 100-mile habitat corridor between the base and the Apalachicola National Forest to the southeast. The base is also creating buffers between its

boundaries and the Blackwater River State Forest to the north.

With strong support from the state's Florida Forever program, the partnership's dedication to the military mission allows Eglin AFB to continue to conduct its testing and training activities. While protecting a major regional economic driver, the partnership is also conserving one of the most biologically diverse regions in the country.

Eglin AFB is home to Joint Strike Fighter training for Air Force pilots as well as maintainers from the Air Force, Navy, and Marine Corps, requiring open space for low-altitude maneuvers (top). REPI projects support Longleaf Pine habitat (bottom).

KEY PARTNERS

- City of Niceville
- Compatible Lands Foundation
- Coastal Conservation League
- Conservation Florida
- Florida Defense Alliance
- Florida Department of Agriculture and Consumer Services
- Florida Department of Economic Opportunity
- Florida Department of Environmental Protection
- Florida Division of Recreation and Parks
- Florida Division of State Lands
- Florida Fish and Wildlife Commission
- Florida Forest Service
- National Fish and Wildlife Foundation

BENEFIT SUMMARY

COMMUNITY

- Supports a designated green corridor to enable wildlife to travel safely between habitats
- Supports existing regional planning objectives, including the implementation of a Joint Land Use Study
- Protects habitat for wildlife

MILITARY

- Protects off-installation maneuver test and evaluation capability
- Provides for future mission growth and multi-Service missions

FAST FACTS FROM FY 2011 THROUGH FY 2024 | Project Status: In Progress

Authority	Transactions	Acres Protected, Managed, or Improved	Total Funds Expended
10 U.S.C. § 2684a	5	24,027	\$25.9 million
Other (e.g., Sikes Act, IGSA)	—	—	\$2.1 million
TOTAL	5	24,027	\$28 million

Subtotals may not sum to combined totals due to rounding. | This project has an established and funded REPI partnership but has not completed any transactions through FY 2023.
