

U.S. Department of Defense

# DOD CLIMATE RESILIENCE WORKSHOP 2023

JULY 10-13, 2023 | ST. LOUIS, MISSOURI

# SAVE THE DATE

The Offices of the Assistant Secretary of Defense for Energy, Installations, and Environment are pleased to invite you to attend the **2023 Climate Resilience Workshop** from July 10 - 13 in St. Louis, Missouri. This workshop will provide a forum for DOD stakeholders and partners to explore the many facets of climate change, a national security threat that has tangible impacts to military readiness. Installations, environmental organizations, and climate change professionals will all be broadly represented to help inform the Military Departments on data, tools, and resources for addressing and combatting climate change threats.

During this workshop, attendees will learn about several lines of effort supporting DOD's Climate Adaptation Plan [ <https://www.sustainability.gov/pdfs/dod-2021-cap.pdf> ]:

- Supporting Climate-Informed Decision-Making:
  - Enhancing climate literacy across internal DOD personnel and external partners
  - Integrating adaptation and resilience into planning processes
- Creating Resilient Built and Natural Infrastructure:
  - Incorporating built and natural infrastructure into natural resource plans to protect land near installations and preserve or expand ecosystems services
  - Providing DOD Climate Assessment Tool training and identifying tools to conduct risk and vulnerability assessments
- Enhancing Adaptation and Resilience Through Collaboration:
  - Incorporating stakeholder interests and priorities into resilience activities to promote common goals and preserve shared ecosystems
  - Highlighting the suite of DOD and other agency programs, funding, and tools available for climate adaptation and military installation resilience
