

OVERVIEW

In Fiscal Year (FY) 2023, the state of Pennsylvania received \$21.8 billion in Defense spending, which provides direct funding for the Department of Defense (DOD) personnel salaries, defense contracts, and construction of military facilities in the state. This spending by DOD personnel, contractors, and their families creates significant economic activity, attracts related industries and investments, and generates important state and local government tax revenues.

The Readiness and Environmental Protection Integration (REPI) Program is a key tool used by DOD and its partners to protect the military's ability to train, test, and operate in the state. The Department created the REPI Program in response to the development of lands and loss of habitat in the vicinity of or affecting its installations, ranges, and airspace that can lead to restrictions or costly and inadequate training and testing alternatives. Through the REPI Program, DOD works with state and local governments, conservation organizations, and willing private landowners to address these challenges to the military mission and the viability of DOD installations and ranges. The REPI Program has benefited from broad bipartisan support both in the U.S. Congress and among groups representing state and local officials. From FY 2014 through FY 2024, DOD and its partners have contributed nearly \$46.3 million to REPI projects supporting one installation in Pennsylvania.

REPI PROJECTS* IN PENNSYLVANIA

Funding Summary (from FY 2014 through FY 2024)

Subtotals may not sum to combined totals due to rounding.

* REPI projects refer to any action authorized by 10 U.S. Code (U.S.C.) § 2684a to include the acquisition of real property interests in land from willing landowners to prevent incompatible development or improve military installation resilience. REPI projects involving the Army or Army National Guard are also termed Army REPI partnerships. Those involving the Navy, Marine Corps, or Air Force, are also termed encroachment partnering agreements. Eligible entities include conservation organizations and state and local governments.

Total Acres Protected (FY 2014 through FY 2024): 9,505

MILITARY PRESENCE

- Fort Indiantown Gap is **one of the busiest National Guard training sites in the country**, with a military mission that annually supports 20,000 Pennsylvania National Guard personnel and more than 120,000 additional personnel from other branches of service; inter-agency partners at the federal, state, and local level; and multinational partners.
- Fort Indiantown Gap serves as **headquarters for the Pennsylvania National Guard**, is a major reserve component training post, and is the second largest employer in Lebanon County.
- Pennsylvania currently has 12 military installations in the state that contribute over **\$37 billion** to the state economy.
- Letterkenny Army Depot is located near Chambersburg, Pennsylvania and comprises **17,500 acres**. The depot is a top three employer in Franklin County.
- Pennsylvania's 12 major military installations and dozens of smaller facilities across the state contribute more than **\$36 billion** to the state's economy.

FORT INDIANTOWN GAP

Fort Indiantown Gap (FIG) National Guard Training Center is one of the busiest National Guard training sites in the country with over 100,000 troops training there annually.

Home to the headquarters of the Pennsylvania Army National Guard—the nation’s second largest National Guard—FIG is a world-class, commander-centric, combat-focused installation that supports active duty and reserve unit training across all the Services.

FIG is home to the Eastern Army Aviation Training Site, which provides a combination of virtual simulations and hands-on experience in an array of procedural training areas, aircraft qualifications, and instructional training on utility and cargo helicopters to aviators. Aircraft stationed at FIG’s airfield execute the largest Flying Hours Program in the Army National Guard, averaging over 9,000 flight hours annually, making it one of the Army’s busiest heliports. FIG also provides ground training support ranging from individual warrior tasks to brigade-level collective

training exercises. The installation hosts multiple military equipment maintenance facilities, artillery exercises, and a live-fire air-to-ground training range.

Much of the land buffering FIG and underneath its aviation training areas is agricultural, forested, or wetlands located within the Kittatinny Ridge, an important migratory bird route and habitat for a variety of rare neo-tropical birds such as the cerulean and golden-winged warblers, and the threatened northern long-eared bat. Maintaining forested and undeveloped areas in and around FIG helps minimize noise and night-lightning conflicts, and provides high quality drinking water for multiple communities in the Susquehanna River watershed.

BENEFIT SUMMARY

COMMUNITY

- Protects working agricultural and forest lands that benefit the local economy
- Supports recreational activities such as hunting, trapping, and fishing

MILITARY

- Protects high-noise live-fire training, including small arms and artillery firing
- Protects ground maneuver capabilities
- Supports aviation activities such as aerial gunnery, bombing, and maneuver training

Fort Indiantown Gap hosts multiple ground-based training activities such as joint armored war fighting exercises (top), and multiple aviation-related training activities (bottom).
