UNITED STATES DEPARTMENT OF DEFENSE
READINESS AND ENVIRONMENTAL
PROTECTION INTEGRATION PROGRAM

TERRITORIAL FACT SHEET

THE MARIANAS
REGION

GUAM AND THE
MARIANAS REGION

OVERVIEW

In Fiscal Year (FY) 2023, Guam received \$2.5 billion in Defense spending, which provides direct funding for the Department of Defense (DOD) personnel salaries, defense contracts, and construction of military facilities in the region. This spending by DOD personnel, contractors, and their families creates significant economic activity, attracts related industries and investments, and generates important state and local government tax revenues.

The Readiness and Environmental Protection Integration (REPI) Program is a key tool used by DOD and its partners to protect the military's ability to train, test, and operate in the state. The Department created the REPI Program in response to the development of lands and loss of habitat in the vicinity of or affecting its installations, ranges, and airspace that can lead to restrictions or costly and inadequate training and testing alternatives. Through the REPI Program, DOD works with state and local governments, conservation organizations, and willing private landowners to address these challenges to the military mission and the viability of DOD installations and ranges. The REPI Program has benefited from broad bipartisan support both in the U.S. Congress and among groups representing state and local officials. From FY 2021 through FY 2024, DOD and its partners have contributed over \$5.7 million to projects supporting several installations and annexes in Guam and the Marianas Region.

DOD IN GUAM

DOD Personnel (as of 30 Sep 2023)

Active Duty: 6,665
Civilians: 2,592
Reserve/National Guard: 2,473
Total DOD Personnel: 11,730

Federal Defense Spending and Economic Impact (in FY 2023)

REPI PROJECTS* IN GUAM AND THE MARIANAS REGION Funding Summary (from FY 2021 through FY 2024)

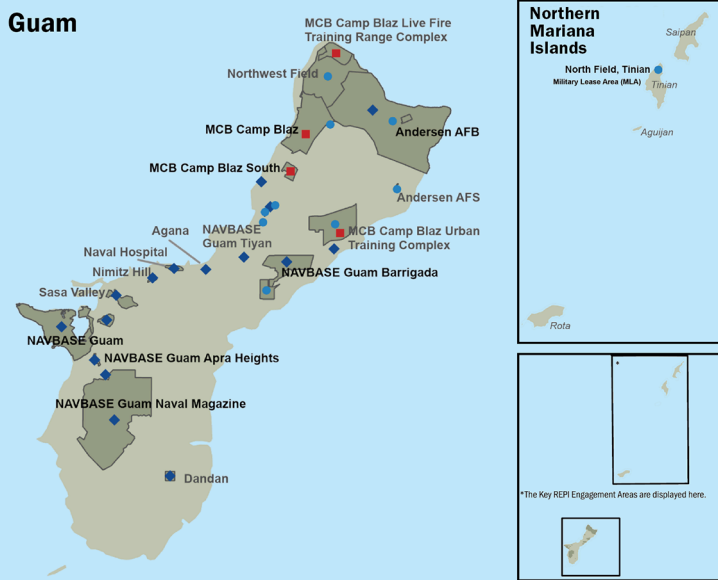

Subtotals may not sum to combined totals due to rounding.

* REPI projects refer to any action authorized by 10 U.S.C. (U.S.C.) § 2684a to include the acquisition of real property interests in land from willing landowners to prevent incompatible development or improve military installation resilience.

** In addition to the real property transactions reported here, this project has expended REPI funds under authorities other than 10 U.S.C. § 2684a, including natural resources management activities under 10 U.S.C. § 2679, also known as Intergovernmental Support Agreements (IGSA), or 16 U.S.C. § 670c-1, commonly referred to as the Sikes Act.

Total Acres Protected, Managed, or Improved (FY 2021 through FY 2024): 4,778 (Sikes Act Project)

MILITARY PRESENCE

- The Mariana Archipelago, comprised of Guam and the Commonwealth of the Northern Marianas (CNMI), is home to several DOD installations and annexes whose missions align closely with critical mission priorities.
- Approximately **5,000 Marines and their families** will be relocating from Japan to Guam by 2025, resulting in a large expansion of military project contracts.
- Naval Base Guam is a consolidated Navy installation with several components across the island. The base provides **critical logistics support to the U.S. Pacific Fleet** and is the only installation in the region that can be used for berthing, ship operations and maintenance, refueling, and ordnance handling.
- As the host unit at Andersen Air Force Base, Guam, the 36th Wing mission is to **project airpower, expand combat capability, and strengthen partnerships** from the forward edge of the Indo-Pacific.
- DOD owns about 25% of the land on Guam. DOD's five-year plan outlined in the Future Years Defense Program calls for spending of nearly \$7.3 billion on Military Construction on the island from FY 2024 through FY 2028.
- The Marine Corps Base Camp Blaz provides the Fleet Marine Forces with operational functionality to enhance warfighting capabilities and strengthens partnerships and joint region relationships, while projecting forward presence.
