## Introduction

Climate change and extreme weather events threaten national security and cause tangible impacts to defense communities, natural habitats, and military readiness. The Department of Defense (DOD) Readiness and Environmental Protection Integration (REPI) Program is a key tool installations and communities can leverage to address climate vulnerabilities, conserve landscapes, and bolster military installation resilience to emerging and existing climate hazards. Please visit <https://repiprimers.org/resilience/> to learn more about how the REPI Program can be leveraged to build installation resilience to climate change.

The REPI Program supports climate resilience by funding the development of off-installation nature-based solutions near installations and ranges. The Congressional authorities also allow for REPI Program funds to serve as a non-federal match for any resilience or conservation program of any federal agency. Learn more about using REPI funds as a non-federal match in the REPI Funds as Match Fact Sheet found at <https://www.repi.mil/Resilience/Complementary-Federal-Programs/>.

Although this guide is not all-inclusive, it presents information about many programs of importance to DOD and others that may provide installations and partners with opportunities to support existing or new REPI resilience projects. Specifically, the guide provides a description, eligibility requirements, and application information for each program. It also identifies the alignment of each program to the following climate hazard categories: Drought, Wildfire, Coastal Hazard, Riverine Flooding, and Land Degradation.<sup>1</sup> For certain programs, the guide provides detailed application instructions and an example of a recent awardee project.

**The purpose of this *Resilience Project Funding Guide* is to share information on available complementary federal and non-federal resilience programs. For the federal programs, REPI Program funds can satisfy the non-federal cost-sharing requirements.**

The remainder of this *Resilience Project Funding Guide* includes the following sections and appendices:

**Program Calendar:**

Monthly calendar with key application opening dates and deadlines.

**Program List:**

Alphabetized list of all the programs featured in this report, with associated agencies identified.

**Program Information Section:**

Includes detailed information for each program.

**Appendix A:**

Summarizes key information for each program.

**Appendix B:**

Provides a list of all acronyms in the report and a glossary defining the climate hazard categories.

<sup>1</sup> Appendix B provides definitions for the climate hazards cited in this guide.

## Program Calendar<sup>2</sup>

This calendar provides a snapshot of key application opening dates and deadlines across all programs covered in this guide, current through its release. For programs that do not have FY 2023 timing, please refer to the program websites; this guide's *Program Information* section provides links for every program. The dates for the annual REPI proposals submitted by the Military Services are highlighted in yellow.

## Agricultural Management Assistance Program

### Program Description

<b>Agency</b>	U.S. Department of Agriculture (USDA)
<b>Description</b>	<p>The Agricultural Management Assistance (AMA) Program helps agricultural producers construct or improve water management or irrigation structures; plant trees for windbreaks or to improve water quality; and mitigate risk through production diversification or resource conservation practices, including soil erosion control, integrated pest management, or transition to organic farming.</p> <p>Learn more: <a href="https://www.nrcs.usda.gov/wps/portal/nrcs/main/national/programs/financial/ama/">https://www.nrcs.usda.gov/wps/portal/nrcs/main/national/programs/financial/ama/</a></p>
<b>Historical Funding</b>	FY21: \$8.13 million FY20: \$8.14 million FY19: \$4.40 million
<b>Category</b>	Land Degradation

### Eligibility Requirements

<b>Eligible Applicants</b>	<p>Applicants must own or control the land within an identified AMA state and comply with adjusted gross income limitation provisions. Eligible land includes cropland, rangeland, grassland, pastureland, non-industrial forestland, and other private land that produces crops or livestock where risk may be mitigated through operation diversification or change in resource conservation practices.</p> <p>AMA is available in 16 states where participation in the federal Crop Insurance Program is historically low: Connecticut, Delaware, Hawaii, Maine, Maryland, Massachusetts, Nevada, New Hampshire, New Jersey, New York, Pennsylvania, Rhode Island, Utah, Vermont, West Virginia, and Wyoming.</p>
<b>Eligible Activities</b>	<p>Conservation Practices: Construct or improve water management structures or irrigation structures; plant trees for windbreaks or to improve water quality; and mitigate risk through production diversification or resource conservation practices, including soil erosion control, integrated pest management, or transition to organic farming.</p>
<b>Cost Share</b>	75 percent federal / 25 percent non-federal
<b>Maximum Funding Potential</b>	\$50,000 per participant per FY.
<b>Minimum Partner Contribution</b>	–

### Application Information

<b>Application Timeline</b>	Applications are accepted on a continuous basis.
<b>Project Period</b>	Contracts can be fewer than 12 months in length, if applicable, and have a maximum contract length of 10 years.
<b>Applying</b>	Apply at the local USDA Service Center: <a href="https://offices.usda.gov/">https://offices.usda.gov/</a> .

[View Program List](#) 

## America the Beautiful Challenge

### Program Description

<b>Agency</b>	National Fish and Wildlife Foundation (NFWF)
<b>Description</b>	America the Beautiful Challenge funding allows applicants to implement landscape-level proposals that address conservation and public access needs. Projects create cumulative benefits for fish and wildlife, provide carbon sequestration and storage benefits, engage with and benefit underserved communities, support community access to nature, and help safeguard ecosystems through conservation and resilience-focused and nature-based solutions. Learn more: <a href="https://www.nfwf.org/programs/america-beautiful-challenge">https://www.nfwf.org/programs/america-beautiful-challenge</a>
<b>Historical Funding</b>	FY22: \$91 million
<b>Category</b>	Coastal Hazard, Drought, Land Degradation, Riverine Flooding, Wildfire

### Recent Recipient

<b>Installation:</b>	Georgia Sentinel Landscape, Georgia
<b>Grant Amount:</b>	\$523,000
<b>Partner Match:</b>	\$523,000
<b>Project Description:</b>	This project will build on the existing West Central Georgia Prescribed Fire Initiative to continue efforts to improve forest health in areas neighboring Fort Moore. Specific activities include executing prescribed burns on 20,000 acres of private land, 5,000 acres of public land, and installing new firebreaks for at least 50 landowners per year to reduce risk of catastrophic wildfire across the region and Georgia Sentinel Landscape.

### Eligibility Requirements

<b>Eligible Applicants</b>	State government agencies, U.S. territories, Non-profit 501(c) organizations, local governments, municipal governments, Indian Tribes, and educational institutions.
<b>Eligible Activities</b>	<p><b>Implementation:</b> Projects that address the program priorities on public, Tribal, and/or private lands. These priorities are to benefit at-risk fish, wildlife, and plant species; expand habitat connectivity; provide a range of ecosystem services; strengthen ecosystem and community resilience; expand public and community access to nature; engage local communities; support Tribally led conservation and restoration priorities; contribute to local or Tribal economies; and/or contribute to workforce development.</p> <p><b>National Forests:</b> Projects will support projects on National Forest System lands to achieve the restoration of a forest ecosystem through the removal of vegetation, the use of prescribed fire, the restoration of aquatic habitat, or the decommissioning of an unauthorized, temporary, or system road. Projects should target outcomes identified in a conservation or restoration implementation plan.</p> <p><b>Planning:</b> Projects that enhance local capacity to implement future on-the-ground actions that address program priorities through community-based assessments, partnership building, planning, project design, and other technical assistance activities. Projects in this category should include multiple partners, be at a significant scale for the landscape/watershed/seascape, and clearly demonstrate how efforts will lead to implementation projects.</p> <p><b>Private Forests, Rangeland and Farmland:</b> Projects that support outreach and engagement with private landowners to advance voluntary conservation efforts on working lands that align with the Natural Resources Conservation Service (NRCS) Working Lands for Wildlife Framework.</p>

[View Program List](#) 

## America the Beautiful Challenge

### Eligibility Requirements (continued)

**Eligible Activities  
(continued)**

Sentinel Landscapes: Projects will be funded through the REPI Program and will be prioritized to sentinel landscapes or areas that preserve or enhance military readiness. Projects in this category should include multiple partners and clearly contribute to outcomes identified in a sentinel landscape implementation plan or other applicable conservation or restoration implementation plan, by enhancing local capacity to implement future on-the-ground actions or by directly contributing to on-the-ground outcomes. Projects in this category must demonstrate benefit to DOD facilities and be in the vicinity of or ecologically linked to a DOD installation or range. DOD funds may not be used for work directly on military lands.

**Cost Share**

90 percent federal / 10 percent non-federal for Implementation grants  
 80 percent federal / 20 percent non-federal for National Forest grants  
 90 percent federal / 10 percent non-federal for Planning grants  
 50 percent federal / 50 percent non-federal for Private Forests, Rangeland, and Farmland grants  
 100 percent federal / 0 percent non-federal for Sentinel Landscape grants  
 Match for all Tribal Nation America the Beautiful Challenge applicants is covered; match for U.S. territories is waived for implementation grants and planning grants

**Maximum Funding  
Potential**

\$5 million for Implementation grants  
 \$1.5 million for National Forest grants  
 \$2 million for Planning grants  
 \$500,000 for Private Forests, Rangeland, and Farmland grants  
 \$1.5 million for Sentinel Landscape grants

**Minimum Partner  
Contribution**

10 percent

### Application Information

**Application Timeline**

Pre-Proposal Application Opening: March 1, 2023  
 Pre-Proposal Application Closing: April 20, 2023  
 Full Proposal Application Opening: June 15, 2023  
 Full Proposal Application Closing: July 20, 2023

**Project Period**

Two to four years for Implementation grants  
 Two to four years for National Forest grants  
 One to three years for Planning grants  
 Two to three years for Private Forests, Rangeland, and Farmland grants  
 Two to four years for Sentinel Landscape grants

**Applying****1. Determine Best-Suited Project Category**

- i. Category One - Implementation Grants: Grants ranging from \$1 million to \$5 million will be awarded to states, U.S. territories, and Tribal-affiliated organizations and governments to implement projects that address the program priorities on public, Tribal, and/or private lands.
- ii. Category Two - National Forest Grants: Grants ranging from \$250,000 to \$1.5 million will be awarded for projects that result in direct, on-the-ground conservation actions that benefit National Forests.

[View Program List](#) 

## America the Beautiful Challenge

### Application Information (continued)

#### Applying (continued)

- iii. Category Three - Planning Grants: Grants of \$200,000 to \$1 million will be awarded to states, U.S. territories, Tribal governments, and Tribal-affiliated organizations for projects that enhance local capacity to implement future on-the-ground actions through community-based assessments, partnership building, planning, project design, and other technical assistance-oriented activities.
  - iv. Category Four - Private Forests, Rangeland and Farmland Grants: Grants ranging from \$200,000 to \$500,000 will support outreach and engagement with private landowners to advance voluntary conservation efforts on working lands that align with the NRCS Working Lands for Wildlife Framework and Initiatives.
  - v. Category Five - Sentinel Landscape Grants: Grants ranging from \$250,000 to \$1.5 million will be awarded for projects that result in or enhance capacity to implement direct, on-the-ground conservation actions that benefit DOD facilities.
- 2. Initiate Dialogue with Eligible Entity**
- i. For All Grant Categories: State government agencies, U.S. territories, and Indian Tribes.
  - ii. For Categories Three and Four: Non-profit 501(c) organizations, local governments, municipal governments, and educational institutions are eligible to apply for grants in categories three and four.
- 3. Determine Cost Share Amount**
- i. DOD Conservation and Restoration Funds (Category Three): Not required
  - ii. DOI Conservation and Restoration Funds (Categories One and Two): 10 percent of costs, 2.5 percent must be cash
  - iii. NRCS Technical Assistance (Category Four): 50 percent of costs
  - iv. USFS Conservation and Restoration Funds (Category Three): 20 percent of costs
- 4. Receive Installation or Sentinel Landscape Support**
- i. If applying for DOD funding, obtain a letter of support from the installation to solidify how the project is protecting mission priorities.
- 5. Submit Application to Easygrants**
- i. Go to <https://easygrants.nfwf.org> to register in the Easygrants online system.

[View Program List](#) **FEMA**

## Building Resilient Infrastructure and Communities Program

### Program Description

<b>Agency</b>	Federal Emergency Management Agency (FEMA)
<b>Description</b>	The Building Resilient Infrastructure and Communities (BRIC) Program supports states, local communities, Tribes, and U.S. territories as they undertake hazard mitigation projects to reduce the risks from disasters and natural hazards. Learn more: <a href="https://www.fema.gov/grants/mitigation/building-resilient-infrastructure-communities">https://www.fema.gov/grants/mitigation/building-resilient-infrastructure-communities</a> .
<b>Historical Funding</b>	FY22: \$2.295 billion FY21: \$1 billion FY20: \$500 million
<b>Category</b>	Coastal Hazard, Drought, Land Degradation, Riverine Flooding, Wildfire

### Eligibility Requirements

<b>Eligible Applicants</b>	States, the District of Columbia, U.S. territories, and Tribal governments (federally recognized). Applicants must have a FEMA-approved state, local, or Tribal Hazard Mitigation Plan by the application deadline and at the time of obligation of grant funds. States and U.S. territories must have a major disaster declaration within seven years prior to the annual application period open date. Local governments may apply with states and U.S. territories as sub-applicants.
<b>Eligible Activities</b>	<p>Capability and Capacity-Building Activities (C&amp;CB): Activities that enhance the knowledge, skills, and expertise of the current workforce to expand or improve the administration of mitigation assistance.</p> <p>Mitigation Projects: Projects designed to increase resilience and public safety; reduce injuries and loss of life; and reduce damage and destruction to property, critical services, facilities, and infrastructure.</p> <p>Management Costs: Financial assistance to reimburse the recipient and subrecipient for eligible and reasonable indirect costs, direct administrative costs, and other administrative expenses associated with a specific mitigation project or C&amp;CB activity.</p> <p>Non-Financial Direct Technical Assistance: Assistance to build a community's capacity and capability to improve its resiliency to natural hazards and to ensure stakeholders are capable of building and sustaining successful mitigation programs, submitting high quality applications, and implementing new and innovative projects that reduce risk from a wide range of natural hazards. (The Non-Financial Direct Technical Assistance initiative does not require a FEMA-approved state, local or Tribal Hazard Mitigation in place to apply)</p>
<b>Cost Share</b>	Generally, BRIC's non-federal cost share is 75 percent federal / 25 percent, however, areas designated as small, impoverished community sub-applicants are eligible for a 90 percent federal / 10 percent non-federal cost share. FEMA will provide 100 percent of funding for management costs.
<b>Maximum Funding Potential</b>	\$50 million
<b>Minimum Partner Contribution</b>	25 percent / 10 percent for small, impoverished communities

[View Program List](#) **FEMA**

## Building Resilient Infrastructure and Communities Program

### Application Information

**Application Timeline**

Application Opening: September 30, 2022

Application Closing: January 27, 2023

**Project Period**

36 months starting from the date of the recipient's award.

**Applying to the  
National Competition****1. Check FEMA Funding Eligibility**

- i. Confirm the local community has an approved Hazard Mitigation Plan:

<https://www.fema.gov/emergency-managers/risk-management/hazard-mitigation-planning/status>.

- ii. If the Hazard Mitigation Plan is not approved or pending approval, contact the FEMA regional contact to receive the local contact for hazard mitigation planning: <https://www.fema.gov/about/contact#regions>.

**2. Review the BRIC Notice of Funding Opportunity (NOFO)**

- i. Review the current year NOFO to ensure project meets application requirements:

[https://www.fema.gov/sites/default/files/documents/fema\\_fy22-bric-nofo\\_08052022.pdf](https://www.fema.gov/sites/default/files/documents/fema_fy22-bric-nofo_08052022.pdf)

**3. Contact State Hazard Mitigation Office**

- i. All FEMA BRIC projects must go through the State Emergency Management Office for approval before sending to FEMA Headquarters.
- ii. Ask the State Hazard Mitigation Officer for a meeting to discuss the project priorities and if plans align with other state resilience or conservation efforts: <https://www.fema.gov/grants/mitigation/state-contacts>.

**4. Select Project Category**

- i. Capability- and Capacity-Building Activities
- ii. Hazard Mitigation Projects
- iii. Management Costs

**5. Determine Cost Share Amounts**

- i. FEMA BRIC projects typically require a 25 percent cost share for all projects. Work with local partners to develop support and funding commitments to meet the 25 percent match.
- ii. Leverage REPI funds to satisfy this 25 percent non-federal cost share if the project benefits military mission priorities.

**6. Execute a Cost Benefit Analysis**

- i. All FEMA BRIC projects must be cost-effective and display the Benefit Cost Ratio through FEMA's software, the Benefit Cost Analysis Toolkit: <https://www.fema.gov/grants/tools/benefit-cost-analysis#toolkit>.

**7. Create an Application in FEMA Grants Outcomes**

- i. Once the key application components are complete, enter the application sections into the FEMA Grants Outcomes online application system: <https://go.fema.gov/>.

**Applying to the  
Non-Financial Direct  
Technical Assistance  
Program****1. Initiate Dialogue with Eligible Entity**

- i. Begin coordination with a city, township, county, special district government, or federally recognized Tribal government.

**2. Discuss Assistance Request**

- i. Meet to review how the community and installation can leverage the technical assistance to develop a local hazard mitigation plan and advance project development, for BRIC application-specific needs.

**3. Submit the BRIC Direct Technical Assistance Form Online**

- i. Apply directly to FEMA through the Direct Technical Assistance website: <https://www.fema.gov/grants/mitigation/building-resilient-infrastructure-communities/direct-technical-assistance>.
- ii. View a sample submission form: [https://www.fema.gov/sites/default/files/documents/fema\\_bric-dta-sample-submission-form\\_0.pdf](https://www.fema.gov/sites/default/files/documents/fema_bric-dta-sample-submission-form_0.pdf).

## Climate Resilience Regional Challenge

### Program Description

<b>Agency</b>	National Oceanic and Atmospheric Administration (NOAA)
<b>Description</b>	The Climate Resilience Regional Challenge supports projects that build the resilience of coastal communities to extreme weather (e.g., hurricanes and storm surge) and other impacts of climate change, including sea level rise and drought. Learn more: <a href="https://coast.noaa.gov/funding/ira/resilience-challenge/">https://coast.noaa.gov/funding/ira/resilience-challenge/</a>
<b>Historical Funding</b>	FY23: \$575 million
<b>Category</b>	Coastal Hazard

### Eligibility Requirements

<b>Eligible Applicants</b>	Coastal states, U.S. territories, counties, cities, Tribes, and Tribal organizations; public or private nonprofit organizations; and institutions of higher education.
<b>Eligible Activities</b>	<p><b>Track One: Regional Collaborative Building and Strategy Development</b></p> <p>NOAA will fund activities to 1) build and expand regional collaboratives; 2) engage and partner with marginalized, underserved, and underrepresented communities; 3) assess risk and vulnerability; 4) plan resilience strategies and adaptation actions; and 5) build community and workforce capacity for climate adaptation efforts.</p> <p><b>Track Two: Implementation of Resilience and Adaptation Actions</b></p> <p>NOAA will fund activities, such as 1) acquiring vulnerable land; 2) building natural infrastructure; 3) hybrid green (natural) and gray (structural) construction activities; 4) strengthening or protecting public access to coastal natural resources; 5) building the region's capacity for ongoing actions that increase resilience; 6) planning and preparing for community-led relocation; and 7) updating state and local codes and policies.</p>
<b>Cost Share</b>	100 percent federal / 0 percent non-federal
<b>Maximum Funding Potential</b>	Track One: \$2 million Track Two: \$75 million
<b>Minimum Partner Contribution</b>	—

### Application Information

<b>Application Timeline</b>	Application Opening: June 20, 2023 Letter of Intent Deadline: August 21, 2023 Full Application Deadline: February 13, 2024
<b>Project Period</b>	Applicants may submit applications covering up to a 60-month period with an anticipated start date of October 1, 2024.
<b>Applying</b>	Apply for the Letter of Intent by emailing <a href="mailto:resiliencechallenge@noaa.gov">resiliencechallenge@noaa.gov</a> Apply for funding using the Grants.gov online system: <a href="https://www.Grants.gov/">https://www.Grants.gov/</a> , opportunity number: NOAA-NOS-OCM-2023-2008068.

## Coastal Program

### Program Description

<b>Agency</b>	U.S. Fish and Wildlife Service (USFWS)
<b>Description</b>	The Coastal Program provides technical and financial assistance for habitat conservation planning and project implementation activities to deliver habitat conservation in coastal watersheds on both public and private lands. Learn more: <a href="https://www.fws.gov/coastal/">https://www.fws.gov/coastal/</a>
<b>Historical Funding</b>	FY23: \$6 million FY22: \$6 million FY21: \$13 million
<b>Category</b>	Coastal Hazard, Land Degradation, Riverine Flooding

### Eligibility Requirements

<b>Eligible Applicants</b>	Federal, state, interstate, and intrastate agencies; local and Tribal governments; public nonprofit organizations; U.S. territories and possessions; and private landowners.
<b>Eligible Activities</b>	Planning, Design, and Implementation Activities: Technical and financial assistance for habitat conservation planning; design and project implementation activities to deliver habitat conservation in coastal watersheds on both public and private lands; and technical and financial assistance for third-party land acquisitions to protect habitats.
<b>Cost Share</b>	Cost sharing is not required, although the USFWS strives to achieve a cost share ratio of 50 percent federal / 50 percent non-federal.
<b>Maximum Funding Potential</b>	\$200,000
<b>Minimum Partner Contribution</b>	0 percent

### Application Information

<b>Application Timeline</b>	Application Opening: October 1 (each year) Application Closing: June 30 (each year)
<b>Project Period</b>	12 to 24 months, starting on the date of the Notice of Award Letter.
<b>Applying</b>	Apply for funding using the Grants.gov online system: <a href="https://www.Grants.gov/">https://www.Grants.gov/</a> , opportunity number: F23AS00032, or contact a Regional Coordinator found at <a href="https://www.fws.gov/program/coastal/contact-us">https://www.fws.gov/program/coastal/contact-us</a> .

[View Program List](#) 

## Community Development Block Grant Mitigation Program

### Program Description

<b>Agency</b>	U.S. Department of Housing and Urban Development (HUD)
<b>Description</b>	The Community Development Block Grant Mitigation Program funds mitigation activities that increase resilience to disasters and reduce or eliminate the long-term risk of loss of life, injury, and damage to and loss of property. Learn more: <a href="https://www.hudexchange.info/programs/cdbg-mit/overview/">https://www.hudexchange.info/programs/cdbg-mit/overview/</a>
<b>Historical Funding</b>	FY21: \$12 billion
<b>Category</b>	Coastal Hazard, Riverine Flooding, Wildfire

### Eligibility Requirements

<b>Eligible Applicants</b>	HUD allocates funds to geographic areas categorized as “Most Impacted and Distressed.” As of October 2022, eligible areas included the following states and local governments: Alaska; American Samoa; California; Florida; Georgia; Hawaii County, Hawaii; Houston, Texas; Kauai County, Hawaii; Lexington County, South Carolina; Louisiana; Missouri; North Carolina; Northern Mariana Islands; Puerto Rico; Richland County, South Carolina; San Marcos, Texas; South Carolina; Texas; Virgin Islands; West Virginia; and Wisconsin.
<b>Eligible Activities</b>	Mitigation Activities: Updating hazard mitigation plans or developing building codes and land use plans. Infrastructure Investments: Construction activities, which may include retrofitting existing infrastructure to withstand stronger storms.
<b>Cost Share</b>	50 percent federal / 50 percent non-federal
<b>Maximum Funding Potential</b>	—
<b>Minimum Partner Contribution</b>	—

### Application Information

<b>Application Timeline</b>	Varies based on the grantee's Action Plan: <a href="https://www.hudexchange.info/programs/cdbg-mit/action-plan-requirements/">https://www.hudexchange.info/programs/cdbg-mit/action-plan-requirements/</a>
<b>Project Period</b>	Grantees are expected to expend 50 percent of funds within six years and 100 percent of the allocation within 12 years.
<b>Applying</b>	HUD passes down Community Development Block Grant funds to state or local offices of community development, which are tasked with administering the funds.

[View Program List](#) **USDA Community Wildfire Defense Grant Program****Program Description**

<b>Agency</b>	USDA
<b>Description</b>	<p>USDA's Community Wildfire Defense Grant (CWDG) Program is intended to help at-risk local communities and Tribes; plan for and reduce the risk of wildfire. The program provides funding to communities for two primary purposes: Develop and revise Community Wildfire Protection Plans (CWPP) and implement projects described in a CWPP that is less than ten years old.</p> <p>Learn more: <a href="https://www.fs.usda.gov/managing-land/fire/grants">https://www.fs.usda.gov/managing-land/fire/grants</a></p>
<b>Historical Funding</b>	<p>FY22-FY31: \$197 million</p> <p>For planning purposes, the total federal funding available through the CWDG competitive process could be up to \$250 million for the second round.</p>
<b>Category</b>	Wildfire, Land Degradation

**Eligibility Requirements**

<b>Eligible Applicants</b>	Tribal governments (federally recognized), Tribal organizations (other than federally recognized tribal governments), city or township governments, county governments, state governments, special district governments, nonprofits with or without a 501(c)(3) status with the Internal Revenue Service (other than institutions of higher education), and public and state-controlled institutions of higher education.
<b>Eligible Activities</b>	<p>CWPP Development or Revision: One of the fundamental building blocks in creating a fire adapted community is the development, adoption, and continuous use of a well-prepared CWPP. In some cases, a community may choose to utilize a FEMA-approved hazard mitigation plan or a Tribal hazard mitigation plan with a wildfire component that meets the same objectives of a CWPP.</p> <p>Project implementation: The project must be described in a CWPP that is not more than 10-years old.</p> <p>Priority will be given to projects that 1) are located in an area identified as having a high or very high wildfire hazard potential; 2) benefit a low-income community; or 3) are located in a community impacted by a severe disaster within the previous 10 years which increased wildfire risk and/or hazard.</p> <p>Additional eligibility information can be found at <a href="https://www.fs.usda.gov/managing-land/fire/grants">https://www.fs.usda.gov/managing-land/fire/grants</a>.</p>
<b>Cost Share</b>	<p>90 percent federal / 10 percent non-federal match for proposals to develop or update a CWPP</p> <p>75 percent federal / 25 percent non-federal match for proposals to implement projects described within a CWPP</p> <p>Match waiver requests are available for communities meeting the definition of underserved, nationally recognized Tribes, and Pacific Islands.</p>
<b>Maximum Funding Potential</b>	<p>\$250,000 for the development or revision of a CWPP</p> <p>\$10 million for a project described within a CWPP that is less than 10 years old</p>
<b>Minimum Partner Contribution</b>	10 percent

## **Community Wildfire Defense Grant Program**

### Application Information

#### Application Timeline

Application Opening: July 31, 2023  
Application Closing: October 31, 2023

#### Project Period

Projects must be completed within five years.

#### Applying

Apply for funding using the Grants.gov online system: <https://www.Grants.gov/>.

Note: Applicants must first register in <https://SAM.gov/> to apply for a grant through Grants.gov. Organizations using the Grants.gov portal must have an active registration with the System for Award Management (SAM.gov), which will generate a Unique Entity Identifier. Creating a SAM.gov registration may take several weeks or more to complete. Therefore, applicants should apply for SAM.gov registration promptly.

For more information, review the Pre-Award Guide for applicants at <https://www.fs.usda.gov/sites/default/files/2022-08/Pre-Award-Guide.pdf>.

of Engineers®

## Continuing Authorities Program

### Program Description

<b>Agency</b>	U.S. Army Corps of Engineers (USACE)
<b>Description</b>	<p>The USACE Continuing Authorities Program (CAP) is a group of nine legislative authorities under which the USACE can plan, design, and implement certain types of water resources projects without congressional authorization.</p> <p>Learn more: <a href="https://www.nae.usace.army.mil/missions/public-services/continuing-authorities-program/">https://www.nae.usace.army.mil/missions/public-services/continuing-authorities-program/</a></p>
<b>Historical Funding</b>	FY21: \$69.5 million FY20: \$72 million FY19: \$66 million
<b>Category</b>	Coastal Hazard, Riverine Flooding

### Eligibility Requirements

<b>Eligible Applicants</b>	States, Tribes, local governments, and agencies.
<b>Eligible Activities</b>	<p>Emergency Streambank and Shoreline Protection: Emergency streambank and shoreline protection for public facilities like roads, bridges, hospitals, schools, and water/sewage treatment plants that are in imminent danger of failing.</p> <p>Beach Erosion and Hurricane and Storm Damage Reduction: Protection of public and private properties and facilities against damages caused by storm-driven waves and currents through the construction of revetments, groins, and jetties.</p> <p>Regional Sediment Management and Beneficial Use of Dredged Material: Use of dredged material from new or existing federal projects for the reduction in storm damages to property and to protect, restore, or create aquatic and ecologically related habitats, including wetlands.</p> <p>Aquatic Ecosystem Restoration: Aquatic ecosystem restoration projects that will improve the quality of the environment, are in the public interest, and are cost-effective.</p>
<b>Cost Share</b>	Varies by legislative authority. Learn more: <a href="https://www.nap.usace.army.mil/Portals/39/docs/Civil/CAP_Factsheet.pdf">https://www.nap.usace.army.mil/Portals/39/docs/Civil/CAP_Factsheet.pdf</a>
<b>Maximum Funding Potential</b>	The first phase, or feasibility phase, is initially funded up to \$100,000.
<b>Minimum Partner Contribution</b>	Varies by legislative authority. Learn more: <a href="https://www.nap.usace.army.mil/Portals/39/docs/Civil/CAP_Factsheet.pdf">https://www.nap.usace.army.mil/Portals/39/docs/Civil/CAP_Factsheet.pdf</a>

### Application Information

<b>Application Timeline</b>	Applications are accepted on a continuous basis.
<b>Project Period</b>	12 to 24 months from executing the feasibility cost sharing agreement.
<b>Applying</b>	To initiate a CAP project, a non-federal sponsor (e.g., a local government or nonprofit entity with local government consent) sends a letter to the appropriate USACE district.

## Defense Community Infrastructure Program

### Program Description

<b>Agency</b>	Office of Local Defense Community Cooperation (OLDCC)
<b>Description</b>	The Defense Community Infrastructure Program (DCIP) addresses deficiencies in community infrastructure, supportive of a military installation, to enhance military value, installation resilience, and military family quality of life. Learn more: <a href="https://oldcc.gov/defense-community-infrastructure-program-dcip">https://oldcc.gov/defense-community-infrastructure-program-dcip</a>
<b>Historical Funding</b>	FY23: \$100 million FY22: \$90 million
<b>Category</b>	Coastal Hazard, Drought, Riverine Flooding, Wildfire

### Recent Recipient

<b>Installation:</b>	Pohakuloa Training Area, Hawaii
<b>Partner:</b>	State of Hawaii Department of Land and Natural Resources
<b>Grant Amount:</b>	\$2.5 million
<b>Partner Match:</b>	n/a
<b>Project Description:</b>	Funding received to support the construction of a new firefighting and conservation warehouse that will improve wildfire response and enable maintenance and repair of firefighting vehicles.

### Eligibility Requirements

<b>Eligible Applicants</b>	State and local governments. Projects owned by not-for-profit, member-owned utility services are eligible, and these utilities may partner with a state or local government as a subrecipient.
<b>Eligible Activities</b>	Community Infrastructure Projects: Any transportation, facility, or utility infrastructure project that supports a military installation, is construction-ready, is endorsed by the local commander representing the installation, and will enhance military family quality of life, resilience, or military value at the supported installation. New authority added in FY 2023 includes projects that will contribute to the training of cadets enrolled in an independent Reserve Officer Training Corps program at a covered educational institution.
<b>Cost Share</b>	70 percent federal / 30 percent non-federal with some exceptions
<b>Maximum Funding Potential</b>	\$20 million
<b>Minimum Partner Contribution</b>	30 percent if the area has a population greater than 100,000 inhabitants

[View Program List](#) 

## Defense Community Infrastructure Program

### Application Information

**Application Timeline**

Application Opening: March to April (each year)  
Application Closing: June to July (each year)

**Project Period**

Project must be completed no later than five years following the obligation of federal funds.

**Applying**

- 1. Initiate Dialogue with Eligible Entity**
  - i. Entities eligible to receive DCIP funding include states and local governments or a not-for-profit, member-owned utility service.
- 2. Determine Project Location and Priorities**
  - i. DCIP-funded projects must be construction-ready, off-base (or on base if the project is within an area subject to a real estate agreement such as an easement or a lease), and supportive of community facilities (e.g., school, hospital, police, fire, emergency response), utility infrastructure projects (e.g., water, waste-water, telecommunications), or other utility infrastructure.
- 3. Determine Cost Share Amounts**
  - i. DCIP projects located in a city, town or unincorporated area with a population greater than 100,000 inhabitants must agree to contribute 30 percent or more of the funding for the proposed project.
- 4. Receive Support from Local Installation Commander**
  - i. All DCIP projects must be endorsed by the local installation commander through a letter of support.
- 5. Review DCIP Proposal Instructions**
  - i. Check the OLDCC DCIP page annually for updated proposal instructions:  
<https://oldcc.gov/defense-community-infrastructure-program-dcip>.
- 6. Submit Project Electronically**
  - i. Complete and submit the project to <https://www.Grants.gov/>, opportunity number: OLDCC-23-F-0001.

**USDA Environmental Quality Incentives Program****Program Description**

<b>Agency</b>	USDA
<b>Description</b>	The Environmental Quality Incentives Program provides financial and technical assistance to agricultural producers to address natural resources concerns and deliver environmental benefits such as reduced soil erosion and sedimentation. Learn more: <a href="https://www.nrcs.usda.gov/wps/portal/nrcs/main/national/programs/financial/eqip/">https://www.nrcs.usda.gov/wps/portal/nrcs/main/national/programs/financial/eqip/</a>
<b>Historical Funding</b>	FY20: \$1.83 billion FY19: \$1.78 billion FY18: \$1.88 billion
<b>Category</b>	Land Degradation

**Eligibility Requirements**

<b>Eligible Applicants</b>	Farmers, ranchers, and forest landowners who own or rent agricultural land.
<b>Eligible Activities</b>	Soil Conservation Practices: Activities to address specific causes of ground or surface water impairment relating to excess nutrients. Water Conservation Practices: Activities to address the conservation of water and advance drought mitigation. Habitat Restoration Practices: Activities to address environmental priorities and other priority resource concerns identified in habitat or other area restoration plans.
<b>Cost Share</b>	75 percent federal / 25 percent non-federal
<b>Maximum Funding Potential</b>	\$415,000
<b>Minimum Partner Contribution</b>	25 percent

**Application Information**

<b>Application Timeline</b>	Applications are accepted on a continuous basis.
<b>Project Period</b>	Contracts can be fewer than 12 months in length, if applicable, and have a maximum contract length of 10 years.
<b>Applying</b>	Apply at the local USDA's Service Center: <a href="https://offices.usda.gov/">https://offices.usda.gov/</a> .

## Environmental Security Technology Certification Program

### Program Description

<b>Agency</b>	DOD
<b>Description</b>	<p>The Environmental Security Technology Certification Program (ESTCP) and the Strategic Environmental Research and Development Program (SERDP) work to expand the knowledge base and develop technologies that provide important insights into DOD installations' exposure to hazards resulting from climate change. This includes sensitivity to climate change hazards, as well as the knowledge, tools, and technologies that build adaptive capacity and resilience to meet those hazards.</p> <p>Learn more: <a href="https://www.serdp-estcp.org/">https://www.serdp-estcp.org/</a>.</p>
<b>Historical Funding</b>	—
<b>Category</b>	Coastal Hazard, Drought, Land Degradation, Riverine Flooding, Wildfire

### Eligibility Requirements

<b>Eligible Applicants</b>	DOD, other federal organizations, universities, and private-sector organizations.
<b>Eligible Activities</b>	Projects to perform environmental research and development that address DOD's high-priority environmental, resilience, and installation energy and water requirements. Specifically, projects are required to develop a formal test and evaluation plan. Project scope varies based on the chosen topic area associated with the solicitation, but fall under one of five categories: Environmental Restoration, Installation Energy and Water, Munitions Response, Resource Conservation and Resiliency, and Weapons Systems and Platforms.
<b>Cost Share</b>	No funding limits are specified in the solicitation.
<b>Maximum Funding Potential</b>	No funding limits are specified in the solicitation.
<b>Minimum Partner Contribution</b>	No funding limits are specified in the solicitation.

### Application Information

<b>Application Timeline</b>	Application Opening: January 6, 2023 Application Closing: March 9, 2023
<b>Project Period</b>	Varies based on the chosen topic area associated with the solicitation.
<b>Applying</b>	Apply for funding via the SERDP and ESTCP Management System at: <a href="https://sems2.serdp-estcp.org/">https://sems2.serdp-estcp.org/</a> in accordance with the instructions for the topic areas of the solicitation to which you are responding. Detailed instructions may be found on the ESTCP and SERDP website: <a href="https://www.serdp-estcp.org/">https://www.serdp-estcp.org/</a> .

## Flood Mitigation Assistance

**FEMA**

### Program Description

<b>Agency</b>	FEMA
<b>Description</b>	The Flood Mitigation Assistance Program provides funding for projects that reduce or eliminate the risk of repetitive flood damage to buildings insured by the National Flood Insurance Program (NFIP). Learn more: <a href="https://www.fema.gov/grants/mitigation/floods">https://www.fema.gov/grants/mitigation/floods</a>
<b>Historical Funding</b>	FY20: \$200 million FY19: \$160 million FY18: \$160 million
<b>Category</b>	Coastal Hazard, Riverine Flooding

### Eligibility Requirements

<b>Eligible Applicants</b>	States, the District of Columbia, U.S. territories, federally recognized Tribal governments, and local and special governments as sub applicants to a state, U.S. territory, and tribal applicant.
<b>Eligible Activities</b>	<p>Project Scoping: Project scoping to develop community flood mitigation projects and/or individual flood mitigation projects that will subsequently reduce flood claims against the NFIP.</p> <p>Community Flood Mitigation Projects: Projects that address community flood risk for the purpose of reducing NFIP flood claim payments.</p> <p>Individual Flood Mitigation Projects: Projects that mitigate the risk of flooding to NFIP insured structures.</p> <p>Technical Assistance: Assistance to maintain a viable Flood Mitigation Assistance program over time.</p> <p>Flood Hazard Mitigation Planning: Planning for the flood hazard component of State, Local, Territory, and Tribal Hazard Mitigation Plans and plan updates.</p>
<b>Cost Share</b>	<p>75 percent federal / 25 percent non-federal for NFIP insured properties</p> <p>90 percent federal / 10 percent non-federal for repetitive loss property in states with repetitive loss strategy</p> <p>100 percent federal / 0 percent non-federal for severe repetitive loss property in states a repetitive loss strategy</p>
<b>Maximum Funding Potential</b>	<p>\$300,000 per Project Scoping sub-application for individual flood mitigation projects</p> <p>\$900,000 per Project Scoping sub-application for Community Flood Mitigation Projects</p> <p>\$30 million cap per Community Flood Mitigation Project sub-application</p> <p>\$50,000 per applicant for all Technical Assistance sub-applications</p> <p>\$100,000 per applicant for flood hazard mitigation planning with maximums of:</p> <p>    \$50,000 for state flood hazard mitigation planning</p> <p>    \$25,000 for local flood hazard mitigation planning</p> <p>10 percent of the total application budget for applicant management costs for applicants to administer and manage award and subaward activities</p> <p>Five percent of the total mitigation project, project scoping, and planning sub-application</p>
<b>Minmum Partner Contribution</b>	25 percent

## Flood Mitigation Assistance

FEMA

### Application Information

#### Application Timeline

Application Opening: September 30, 2022  
Application Closing: January 27, 2023

#### Project Period

36 months, from the date of the recipient's award  
48 months, from the date of the recipient's award for community flood mitigation projects

#### Applying

Apply for funding using FEMA Grants Outcomes: <https://go.fema.gov/>.

[View Program List](#) **USDA Forest Legacy Program****Program Description**

<b>Agency</b>	USDA
<b>Description</b>	USDA's Forest Legacy Program (FLP) encourages the protection of privately owned forest lands through conservation easements or land purchases. Learn more: <a href="https://www.fs.usda.gov/managing-land/private-land/forest-legacy">https://www.fs.usda.gov/managing-land/private-land/forest-legacy</a>
<b>Historical Funding</b>	FY21–FY31: \$795 million FY21: \$94 million FY20: \$64 million FY19: \$64 million
<b>Category</b>	Wildfire, Land Degradation

**Eligibility Requirements**

<b>Eligible Applicants</b>	States, U.S. territories, and federal- or state-recognized tribes (all eligible applicants must submit through the designated state lead agency)
<b>Eligible Activities</b>	<p>Conservation Easements: Landowners may participate in the Forest Legacy Program either by selling their property outright or by retaining ownership and selling only a portion of the property's development rights; both are held by state agencies or another unit of government.</p> <p>Proposed FLP lands must meet the following minimum eligibility requirements:</p> <ol style="list-style-type: none"> <li>1) It is within, or partially within, a designated Forest Legacy Area;</li> <li>2) It has a minimum of 75 percent forestland or a documented plan that includes sufficient landowner capacity to reforest to at least 75 percent forestland;</li> <li>3) It can be managed consistent with the purpose for which it was acquired by FLP;</li> <li>4) The landowner is willing to sell or donate the interest in perpetuity; and</li> <li>5) The landowner acknowledges that the conservation easement will be held by a government entity if federal funds are used for the acquisition.</li> </ol> <p>Additional eligibility information can be found at <a href="https://www.fs.usda.gov/sites/default/files/fs_media/fs_document/15541-forest-service-legacy-program-508.pdf">https://www.fs.usda.gov/sites/default/files/fs_media/fs_document/15541-forest-service-legacy-program-508.pdf</a>.</p>
<b>Cost Share</b>	75 percent federal / 25 percent non-federal
<b>Maximum Funding Potential</b>	<p><b>FLP Land and Water Conservation Fund (LWCF)</b> \$20 million per state across one to three projects</p> <p><b>FLP Inflation Reduction Act (IRA)</b> States can submit up to five projects in each round for funding consideration within the following project types/category:</p> <ol style="list-style-type: none"> <li>1) One Large Landscape project – not to exceed \$50 million per project.</li> <li>2) One State-Tribal Partnership project – not to exceed \$50 million per project.</li> <li>3) Three Strategic Small Tract projects – not to exceed \$1.5 million per project.</li> </ol>
<b>Minimum Partner Contribution</b>	25 percent

**Application Information**

<b>Application Timeline</b>	<b>FLP LWCF</b> Application Opening: April 21, 2023 Application Closing: September 8, 2023
	<b>FLP IRA</b> Application Opening (Round 1 & 2): June 29, 2023 Application Closing (Round 1): December 11, 2023 Application Closing (Round 2): May 20, 2024
<b>Project Period</b>	<b>FLP LWCF</b> 24 months, from the date of the recipient's award.
	<b>FLP IRA</b> 12 months for the Strategic Small Tract projects, three years for the other project types.
<b>Applying</b>	State Lead Agencies submit projects to the USFS Washington Office.

**FEMA**

## Hazard Mitigation Grant Program

### Program Description

<b>Agency</b>	FEMA
<b>Description</b>	FEMA's Hazard Mitigation Grant Program (HMGP) provides funding to state, local, tribal, and U.S. territorial governments to support hazard mitigation planning and mitigation activities to reduce future disaster losses in their communities. Learn more: <a href="https://www.fema.gov/grants/mitigation/hazard-mitigation">https://www.fema.gov/grants/mitigation/hazard-mitigation</a>
<b>Historical Funding</b>	HMGP funding varies by state. The funding amounts are available by request. Please reach out to your State Hazard Mitigation Officer for more details.
<b>Category</b>	Coastal Hazard, Drought, Land Degradation, Riverine Flooding, Wildfire

### Eligibility Requirements

<b>Eligible Applicants</b>	Applicants must have a FEMA-approved hazard mitigation plan to receive HMGP funding. State, Tribal, and U.S. territorial governments are eligible to apply (local governments submit applications through the state). Homeowners and businesses are not eligible to apply directly, though a local government may apply on their behalf.
<b>Eligible Activities</b>	Various activities including acquisition and relocation; structure elevation; flood risk reduction; wildfire mitigation; and soil stabilization.
<b>Cost Share</b>	75 percent federal / 25 percent non-federal
<b>Maximum Funding Potential</b>	The level of HMGP funding available is based on a percentage of the estimated total federal assistance provided for each disaster: 15 percent for standard mitigation plans and 20 percent for enhanced mitigation plans.
<b>Minimum Partner Contribution</b>	—

### Application Information

<b>Application Timeline</b>	The application period opens on the date of the Presidential major disaster declaration and closes 12 months after the date of declaration.
<b>Project Period</b>	The Recipient is expected to complete the Federal award activities and to incur and expend approved funds within the Period of Performance (POP). The POP for HMGP begins with the opening of the application period and ends no later than 36 months from the close of the application period.
<b>Applying</b>	Applications for HMGP are processed through the National Emergency Management Information System (NEMIS). Applicants must use the Application Development Module of NEMIS to create project applications and submit them to the appropriate FEMA Region in digital format for the relevant disaster.

[View Program List](#) **FEMA**

## Hazard Mitigation Grant Program Post Fire

### Program Description

<b>Agency</b>	FEMA
<b>Description</b>	FEMA's HMGP Post Fire is available to help communities implement hazard mitigation measures after wildfire disasters. Hazard mitigation measures under HMGP Post Fire include assistance for hazard mitigation measures that substantially reduce the risk of future wildfire damage in any area affected by a fire. Learn more: <a href="https://www.fema.gov/grants/mitigation/post-fire">https://www.fema.gov/grants/mitigation/post-fire</a>
<b>Historical Funding</b>	Varies by state, see list here: <a href="https://www.fema.gov/disaster/coronavirus/disaster-declarations">https://www.fema.gov/disaster/coronavirus/disaster-declarations</a>
<b>Category</b>	Land Degradation, Wildfire

### Eligibility Requirements

<b>Eligible Applicants</b>	Applicants must have a FEMA-approved hazard mitigation plan to receive HMGP Post Fire funding. States, federally recognized Tribes, and U.S. territories affected by fires resulting in a Fire Management Assistance Grant (FMAG) declaration on or after October 5, 2018, are eligible to apply.
<b>Eligible Activities</b>	Wildfire Mitigation; Fire-resistant Structural Retrofits; Soil and Slope Stabilization; and Post-Wildfire Flood Prevention and Sediment Reduction.
<b>Cost Share</b>	75 percent federal / 25 percent non-federal
<b>Maximum Funding Potential</b>	In FY 2023, \$918,774 for standard mitigation plans and \$1,225,032 for enhanced mitigation plans
<b>Minimum Partner Contribution</b>	—

### Application Information

<b>Application Timeline</b>	The application period opens with the applicant's first FMAG declaration of the FY and closes at 11:59 PM Eastern Time on the last day of the sixth month of the next FY (March 31).
<b>Project Period</b>	The Recipient is expected to complete the federal award activities and to incur and expend approved funds within the POP. The POP for HMGP Post Fire begins with the opening of the application period and ends no later than 36 months from the close of the application period.
<b>Applying</b>	Applications for HMGP Post Fire are processed through the NEMIS. Applicants must use the Application Development Module of NEMIS to create project applications and submit them to the appropriate FEMA Region in digital format for the relevant disaster.

## Installation Resilience Program

### Program Description

<b>Agency</b>	OLDCC
<b>Description</b>	<p>The OLDCC's Installation Resilience program presents states and communities with the opportunity to partner with their local installations and the Military Services to support the organizing, planning, and implementation actions necessary to foster, protect, and enhance the sustainability of installations. It merges previous installation resilience and compatible use (formerly a Joint Land Use Study) elements into one broader program continuum.</p> <p>Learn more: <a href="https://oldcc.gov/our-programs/installation-resilience">https://oldcc.gov/our-programs/installation-resilience</a></p>
<b>Historical Funding</b>	FY22: \$7.2 million FY21: \$8.5 million FY20: \$5.8 million
<b>Category</b>	Coastal Hazard, Drought, Land Degradation, Riverine Flooding, Wildfire

### Eligibility Requirements

<b>Eligible Applicants</b>	States, counties, municipalities, other political subdivisions of a state; special purpose units of a state or local government; other instrumentalities of a state or local government; and Tribal nations are eligible if OLDCC determines there is a threat to military installation resilience or encroachment of a civilian origin on the local military mission that involves, or may be significantly impacted by, resources or activities outside of the military installation, and that this threat is likely to impair the installation's ability to maintain, improve, or rapidly reestablish installation mission assurance and mission-essential functions.
<b>Eligible Activities</b>	Projects may include: a comprehensive review of natural and man-made threats and vulnerabilities; targeted studies or plans concerning, but not limited to transportation, land use/encroachment, utility services, housing, stormwater management, sewer, and communications; and, table-top exercises with local military and civilian (public and private) leadership to review capacities of hard infrastructure and public services to respond to natural and/or man-made disruptions.
<b>Cost Share</b>	90 percent federal / 10 percent non-federal
<b>Maximum Funding Potential</b>	\$1.5 million
<b>Minimum Partner Contribution</b>	10 percent

### Application Information

<b>Application Timeline</b>	<p>Service Nomination Process: Each year (typically in Spring), OLDCC puts out an annual call to the Military Services for nominations from installation commanders.</p> <p>Community Nomination Process: State and local governments may self-nominate by reaching out to the Program Activity Lead, Margit Myers, at <a href="mailto:margit.a.myers.civ@mail.mil">margit.a.myers.civ@mail.mil</a>.</p>
<b>Project Period</b>	Project periods may occur over a 12- to 18-month period.

[View Program List](#) 

## Installation Resilience Program

### Application Information (continued)

#### Applying

#### 1. Project Nomination

- i. Service Nomination Process - Each year, typically in the Spring, OLDCC puts out an annual call to Military Department Leadership for nominations.
- ii. Community Nomination Process - State and local governments can self nominate by contacting the Program Activity Lead.

#### 2. Nomination Review and Determination

- i. After OLDCC receives a nomination, a Project Manager is assigned and works with the installation and community on the need and purpose for a project. This step also includes identifying an eligible entity (include states, counties, municipalities, and other political subdivisions of a state; special purpose units of a state or local government; other instrumentalities of a state or local government; and Tribal nations.)
- ii. The Project Manager proceeds to gather information from the installation and community to determine whether a basis for a project may exist in conformity with OLDCC core program authorities under 10 U.S. Code Section 2391.

#### 3. Application Development

- i. If OLDCC determines the nomination is eligible, the Project Manager invites the community, with support from the installation, to apply for a grant.

## Land and Water Conservation Fund

### Program Description

<b>Agency</b>	The Department of the Interior (DOI)
<b>Description</b>	The LWCF invests earnings from offshore oil and gas leasing to help strengthen communities, preserve history, and protect the national endowment of lands and waters. The federal portion of the LWCF is used to acquire lands, waters, and interests therein necessary to achieve the natural, cultural, wildlife, and recreation management objectives of federal land management agencies. Learn more: <a href="https://www.doi.gov/lwcf">https://www.doi.gov/lwcf</a>
<b>Historical Funding</b>	FY22: \$900 million FY21: \$900 million
<b>Category</b>	Land Degradation

### Eligibility Requirements

<b>Eligible Applicants</b>	Cities, counties, townships, park boards and park districts, school districts, state agencies, water management districts, and federally recognized Indian Tribes.
<b>Eligible Activities</b>	Outdoor Recreation Facilities: Grants may be awarded for new outdoor recreation facilities, or the improvement or renovation of existing facilities. Land Acquisition Projects: Land Acquisition projects consist of land purchase and/or donation that is sometimes combined with development of facilities.
<b>Cost Share</b>	50 percent federal / 50 percent non-federal
<b>Maximum Funding Potential</b>	—
<b>Minimum Partner Contribution</b>	50 percent

### Application Information

<b>Application Timeline</b>	Applications are accepted on a continuous basis.
<b>Project Period</b>	Grant recipients must utilize funding within 18 months of the award.
<b>Applying</b>	Apply for funding using the Grants.gov online system: <a href="https://www.Grants.gov/">https://www.Grants.gov/</a> .

## Legacy Resource Management Program

### Program Description

<b>Agency</b>	DOD
<b>Description</b>	The mission of the Legacy Program is to provide coordinated, Department-wide, and partnership-based integration of military mission readiness with the conservation of irreplaceable natural and cultural resources on or involving DOD lands, facilities, and property. Learn more: <a href="https://www.denix.osd.mil/legacy/">https://www.denix.osd.mil/legacy/</a>
<b>Historical Funding</b>	Over \$380 million since 1990 (60 percent natural resources and 40 percent cultural resources)
<b>Category</b>	Coastal Hazard, Drought, Land Degradation, Riverine Flooding, Wildfire

### Recent Recipient

<b>Installation:</b>	Marine Corps Air Station Yuma, Arizona
<b>Grant Amount:</b>	\$270,000
<b>Partner Match:</b>	n/a
<b>Project Description:</b>	The project will focus on a regenerative grazing initiative to promote water infiltration and carbon sequestration.

### Eligibility Requirements

<b>Eligible Applicants</b>	Public and private agencies, organizations, institutions, and individuals are invited to apply.
<b>Eligible Activities</b>	<ul style="list-style-type: none"><li>• Improving management and conservation of biodiversity, particularly of DOD “mission priority species.”</li><li>• Improving techniques and approaches for resilient lands and ecosystem management.</li><li>• Wildland fire management and risk reduction.</li><li>• Improving management of cultural resources.</li><li>• Improving consultation and coordination with Tribal Governments and inclusion of indigenous knowledge in management programs.</li></ul>
<b>Cost Share</b>	Encouraged, but not required
<b>Maximum Funding Potential</b>	\$30 million
<b>Minimum Partner Contribution</b>	—

### Application Information

<b>Application Timeline</b>	Applications are accepted on a continuous basis.
<b>Project Period</b>	The POP is subject to the proposed project.
<b>Applying</b>	Apply for funding using the Grants.gov online system: <a href="https://www.Grants.gov/">https://www.Grants.gov/</a> , opportunity number: HQ003423NFOEASD07.

## Longleaf Landscape Stewardship Fund

### Program Description

<b>Agency</b>	NFWF
<b>Description</b>	<p>The Longleaf Landscape Stewardship Fund seeks to enhance and conserve longleaf pine and bottomland hardwood forests. Projects include specific longleaf pine and/or bottomland hardwood habitat and species restoration, and projects that address co-benefits and engage local communities and historically underserved landowners.</p> <p>Learn more: <a href="https://www.nfwf.org/programs/longleaf-landscape-stewardship-fund">https://www.nfwf.org/programs/longleaf-landscape-stewardship-fund</a></p>
<b>Historical Funding</b>	FY22: \$7.5 million FY21: \$5.3 million FY20: \$5.6 million
<b>Category</b>	Land Degradation, Wildfire

### Recent Recipient

<b>Installation:</b>	Fort Liberty, North Carolina
<b>Partner:</b>	The Nature Conservancy
<b>Grant Amount:</b>	\$392,200
<b>Partner Match:</b>	\$234,400
<b>Project Description:</b>	Funding received to improve the habitat for Bachman's sparrow, red-cockaded woodpecker, and northern bobwhite through wildfire management projects for 40,000 acres of existing longleaf pine habitat.

### Eligibility Requirements

<b>Eligible Applicants</b>	Eligible applicants include non-profit 501(c) organizations, state government agencies, local governments, municipal governments, Tribal governments and organizations, and educational institutions.
<b>Eligible Activities</b>	Projects must occur within the historical longleaf pine range. Eligible activities include establishing, enhancing, and maintaining longleaf pine and/or bottomland hardwood forests, expanding and coordinating technical assistance and outreach, building and improving local implementation team capacity, accelerating species recovery, and targeted conservation easement projects.
<b>Cost Share</b>	Cost share is not required, although projects that provide 1:1 non-federal match are most competitive
<b>Maximum Funding Potential</b>	\$500,000
<b>Minimum Partner Contribution</b>	50 percent; match waivers considered

### Application Information

<b>Application Timeline</b>	Application Opening: November 2022 Application Closing: February 9, 2023
<b>Project Period</b>	24 to 36 months, following finalization of a grant agreement.
<b>Applying</b>	Apply for funding using the Easygrants online system: <a href="https://easygrants.nfwf.org">easygrants.nfwf.org</a> .

[View Program List](#) 

## National Coastal Resilience Fund

### Program Description

<b>Agency</b>	NFWF
<b>Description</b>	The National Coastal Resilience Fund (NCRF) strengthens natural infrastructure to protect coastal communities while also enhancing habitats for fish and wildlife. NFWF invests in conservation projects that restore or expand natural features such as coastal marshes and wetlands, dune and beach systems, oyster and coral reefs, forests, coastal rivers and floodplains, and barrier islands. Funding is available in partnership with the REPI Program to support projects advancing nature-based solutions in the vicinity of but not within the boundaries of DOD installations and ranges that enhance military resilience to coastal hazards. Learn more: <a href="https://www.nfwf.org/programs/national-coastal-resilience-fund">https://www.nfwf.org/programs/national-coastal-resilience-fund</a>
<b>Historical Funding</b>	FY23: \$140 million (estimated) FY22: \$146 million
<b>Category</b>	Coastal Hazard, Riverine Flooding (within NCRF coastal area boundary)

### Recent Recipient

<b>Installation:</b>	Tyndall Air Force Base, Florida
<b>Partner:</b>	The Nature Conservancy
<b>Grant Amount:</b>	\$4.8 million
<b>Partner Match:</b>	\$750,000
<b>Project Description:</b>	Funding received to support the reconstruction of Tyndall Air Force Base through restoring dunes, salt marshes, and oyster reefs to make the base more resilient to coastal flooding and extreme weather events.

### Eligibility Requirements

<b>Eligible Applicants</b>	Non-profit 501(c) organizations, state and U.S. territorial government agencies, local governments, municipal governments, Tribal governments and organizations, educational institutions, or commercial (for-profit) organizations.
<b>Eligible Activities</b>	<p>Community Capacity Building and Planning: Activities that build the capacity to plan and execute a variety of future resilience strategies, projects, and other activities.</p> <p>Site Assessment and Preliminary Design: Completing site assessments and preliminary designs of best options to address restoration and community resilience goals.</p> <p>Final Design and Permitting: Developing conceptual or preliminary designs into final designs and engineering plans, continued and expanded stakeholder engagement efforts, detailed cost estimates, robust communications with permitting officials at various levels of government, and other related tasks to position projects for restoration-ready implementation.</p> <p>Restoration and Monitoring: Projects that protect and enhance resilience of natural systems and help mitigate the impacts of future storms and other natural-hazard events and threats on key local community assets (such as emergency services, infrastructure, and centers of economic activity), and drive the expected benefit to fish and wildlife.</p>
<b>Cost Share</b>	Non-federal is not required, although projects that include a match are most competitive
<b>Maximum Funding Potential</b>	On average, between \$100,000 to \$1 million for planning and design projects, and up to \$10 million for restoration implementation projects
<b>Minimum Partner Contribution</b>	0 percent

[View Program List](#) 

## National Coastal Resilience Fund

### Application Information

<b>Application Timeline</b>	Pre-Proposal Application Opening: Feb 15, 2023
	Pre-Proposal Application Closing: April 12, 2023
	Full Proposal Application Opening: May 2023
	Full Proposal Application Closing: June 28, 2023
<b>Project Period</b>	Project periods of performance vary from 12 months to 40 months or more based upon the scope of work for the project, but cannot exceed the five year POP for the funding source supporting the grant.
	Typical Community Capacity Building and Planning projects have periods of performance that range from 24 to 36 months. Typical Site Assessment, Preliminary Design, Final Design and Permitting projects have periods of performance that range from 12 to 20 months. Restoration implementation projects should be able to begin construction within 12 months of the grant award date and must include at least 12 months of post-construction monitoring, and the total POP cannot exceed four years.
<b>Applying</b>	<b>1. Initiate Dialogue with Eligible Entity in an Eligible Region</b>
	<ul style="list-style-type: none"><li>i. Eligible Entity: Non-profit 501(c) organizations, state and U.S. territorial government agencies, local governments, municipal governments, Tribal governments and organizations, educational institutions, or commercial (for-profit) organizations.</li><li>ii. Eligible Regions: <a href="https://www.arcgis.com/apps/View/index.html?appid=1dd16e528fd844b49d765b51402feb8c&amp;amp%3Bextent">https://www.arcgis.com/apps/View/index.html?appid=1dd16e528fd844b49d765b51402feb8c&amp;amp%3Bextent</a></li></ul>
<b>Applying</b>	<b>2. Select Project Category</b>
	<ul style="list-style-type: none"><li>i. Community Capacity Building and Planning: Proposals under this category should clearly describe the coastal community(ies) and the geography(ies) for which resilience projects will be considered; how communities will be considered and engaged; the factors, criteria, and methodology that will be considered in prioritizing resilience projects and strategies; and the specific nature-based solutions likely to be considered in the planning efforts.</li><li>ii. Site Assessment and Preliminary Design: Eligible activities under this category include but are not limited to the evaluation of potential project sites and project alternatives, continued and expanded stakeholder engagement efforts, assessment of potential risk reduction benefits of project alternatives, gathering of baseline data, cost-benefit analyses, preliminary engagement with permitting agencies, and preparation of preliminary project designs.</li><li>iii. Final Design and Permitting: Funding may be used to advance projects from conceptual or preliminary designs into final designs and engineering plans, continue and expand stakeholder engagement efforts, prepare detailed cost estimates, engage permitting officials at various levels of government, and perform other related tasks to position projects for “restoration-ready” implementation.</li><li>iv. Restoration and Implementation: Projects proposed under this category are expected to have already been prioritized through planning process(es) that address coastal resilience, completed all design and engineering plans necessary for implementation, and begin construction within one year of the grant award date.</li></ul>
<b>Applying</b>	<b>3. Receive Installation Support</b>
	<ul style="list-style-type: none"><li>i. For DOD funding, receive a letter of support from the installation to confirm the project is protecting mission priorities.</li></ul>
<b>Applying</b>	<b>4. Submit Application to Easygrants</b>
	<ul style="list-style-type: none"><li>i. Go to <a href="https://easygrants.nfwf.org">https://easygrants.nfwf.org</a> to register in the Easygrants online system.</li></ul>

## National Coastal Wetlands Conservation Grants Program

### Program Description

<b>Agency</b>	USFWS
<b>Description</b>	The National Coastal Wetlands Conservation Grants Program provides funding for the restoration, enhancement, or management of coastal wetlands ecosystems. Learn more: <a href="https://www.fws.gov/coastal/coastalgrants/">https://www.fws.gov/coastal/coastalgrants/</a>
<b>Historical Funding</b>	FY21: \$27 million FY20: \$17 million FY19: \$17 million
<b>Category</b>	Coastal Hazard, Riverine Flooding

### Eligibility Requirements

<b>Eligible Applicants</b>	Coastal state governments and agencies. Eligible states include Alabama, Alaska, California, Connecticut, Delaware, Florida, Georgia, Hawaii, Maine, Maryland, Massachusetts, Mississippi, New Hampshire, New Jersey, New York, North Carolina, Oregon, Rhode Island, South Carolina, Texas, Virginia, Washington, American Samoa, the Commonwealth of the Northern Mariana Islands, Guam, Puerto Rico, and the U.S. Virgin Islands.
<b>Eligible Activities</b>	Wetland Restoration: Activities that support the restoration, enhancement, or management of coastal wetlands ecosystems, provided that restoration, enhancement, or management will be administered for long-term conservation.
<b>Cost Share</b>	75 percent federal / 25 percent non-federal
<b>Maximum Funding Potential</b>	\$1 million
<b>Minimum Partner Contribution</b>	25 percent (if applicant has established a fund that is used for acquiring coastal wetlands, other natural areas, or open space)

### Application Information

<b>Application Timeline</b>	Application Opening: January 30, 2023 Application Closing: June 23, 2023
<b>Project Period</b>	Selected by applicant
<b>Applying</b>	Apply for funding using the Grants.gov online system: <a href="https://www.Grants.gov/">https://www.Grants.gov/</a> , opportunity number: F24AS00005.

## REPI Challenge

### Program Description

<b>Agency</b>	DOD
<b>Description</b>	<p>The primary focus of the REPI Challenge is on advancing efforts that preserve key mission capabilities of strategic importance to DOD and enhance installation and range resilience to climate change and severe weather events (e.g., drought, increased wildfires, thawing permafrost).</p> <p>Learn more: <a href="https://www.repi.mil/Buffer-Projects/REPI-Challenge/">https://www.repi.mil/Buffer-Projects/REPI-Challenge/</a></p>
<b>Historical Funding</b>	FY23: \$40 million FY22: \$31.6 million FY21: \$15.6 million
<b>Category</b>	Coastal Hazard, Drought, Land Degradation, Riverine Flooding, Wildfire

### Recent Recipient

<b>Installation:</b>	Fort Huachuca, Arizona
<b>Partner:</b>	Cochise County Department of Engineering and Natural Resources
<b>Grant Amount:</b>	\$2.8 million
<b>Partner Match:</b>	\$5.3 million
<b>Project Description:</b>	Funding received to support climate resilience with off-base projects (e.g., groundwater recharge, streambank stabilization, watershed analyses, land conservation) to manage drought impacts.

### Eligibility Requirements

<b>Eligible Applicants</b>	Eligible entities vary depending on the authority being leveraged for a REPI project, but may include states, local governments, Indian Tribes, non-governmental organizations, and individuals through cooperative agreements, as well as heads of federal departments and agencies through interagency agreements; or a private entity that has as its stated principle organizational purpose or goal the conservation, restoration, or preservation of land and natural resources or a similar purpose or goal.
<b>Eligible Activities</b>	Eligible REPI Challenge projects include projects that will help make key mission capabilities of strategic importance to DOD more resilient to climate change and severe weather events (e.g., drought, increased wildfires, thawing permafrost). In addition to these climate resilience projects, funding is available for projects that promote land conservation or management activities limiting incompatible development or relieving current or anticipated environmental restrictions.
<b>Cost Share</b>	50 percent federal / 50 percent non-federal
<b>Maximum Funding Potential</b>	\$25 million
<b>Minimum Partner Contribution</b>	50 percent

[View Program List](#) 

## REPI Challenge

### Application Information

<b>Application Timeline</b>	Pre-Proposal Application Opening: May 1, 2023
	Pre-Proposal Application Closing: June 12, 2023
	Full Proposal Application Opening: July 7, 2023
	Full Proposal Application Closing: August 14, 2023
<b>Project Period</b>	Ideally, selected projects will be initiated within six months after funds are obligated to the successful applicant and expended within five years.
<b>Applying</b>	<b>1. Initiate Dialogue with Eligible Entity</b> i. Begin coordination with a eligible entity whose organizational purpose or goal is conservation, restoration, or preservation of land and natural resources.
	<b>2. Discuss Military Mission Priorities and Proposed Project</b> i. Every REPI Challenge project must contribute to the protection or enhancement of military mission priorities. Ensure the partner understands how to explain the military mission benefits from the proposed conservation or resilience activities.
	<b>3. Select Focus Area</b> i. Propose a project in Focus Area A (Climate Resilience Projects), Focus Area B (Activities Limiting Incompatible Development), or Focus Area C (Activities Relieving Current or Anticipated Environmental Restrictions).
	<b>4. Develop a Pre-Proposal</b> i. Partners submit pre-proposals to U.S. Endowment for Forestry and Communities in late July with support from the Military Services.
	<b>5. Develop a Full Proposal</b> i. Partners submit full proposals to U.S. Endowment for Forestry and Communities in late September with support from the Military Services.

## Section 319 Nonpoint Source Grant Program

### Program Description

<b>Agency</b>	Environmental Protection Agency (EPA)
<b>Description</b>	<p>The Section 319 Nonpoint Source Grant Program provides funding for implementing activities that restore impaired waters or protect unimpaired and high quality waters.</p> <p>States submit their proposed funding plans to EPA. If a state's funding plan is consistent with grant eligibility requirements and procedures, EPA then awards the funds to the state, in accordance with a state-by-state allocation formula that EPA has developed in consultation with the states.</p> <p>Learn more: <a href="https://www.epa.gov/nps/319-grant-program-states-and-territories">https://www.epa.gov/nps/319-grant-program-states-and-territories</a></p>
<b>Historical Funding</b>	FY22: \$178 million FY21: \$172.3 million FY20: \$165.4 million
<b>Category</b>	Coastal Hazard, Drought, Land Degradation, Riverine Flooding, Wildfire

### Eligibility Requirements

<b>Eligible Applicants</b>	States, U.S. territories, and Tribes that have acquired Treatment as a State
<b>Eligible Activities</b>	<p>Nonpoint Source Management Program Updates: Updating and refocusing the state Nonpoint Source Management Program and Nonpoint Source Assessments to improve program effectiveness.</p> <p>Groundwater Protection: Groundwater activities must be identified in a state's Nonpoint Source Management Program, Ground Water Protection Strategy, or Comprehensive State Ground Water Protection Program (CWA § 319(h)(5)(D); USEPA NPS, 2013).</p> <p>Watershed Protection: Protecting unimpaired/high-quality waters identified in a state Nonpoint Source Management Program.</p> <p>Implement Approved Nonpoint Source Management Plan (NPSMP): NPSMP are five year strategies that outline Nonpoint Source priorities, focus areas, and milestones. Annual Section 319 grant workplans derive from the approved NPSMP. Section 319 funds may be used to implement practices, outreach and education, and planning activities that support and are aligned with the NPSMP.</p>
<b>Cost Share</b>	60 percent federal / 40 percent non-federal
<b>Maximum Funding Potential</b>	—
<b>Minimum Partner Contribution</b>	—

### Application Information

<b>Application Timeline</b>	Varies based on the state Nonpoint Source Management Program: <a href="https://www.epa.gov/nps/contacts-nonpoint-source-nps-pollution-programs">https://www.epa.gov/nps/contacts-nonpoint-source-nps-pollution-programs</a>
<b>Project Period</b>	Most grants are limited to five year project periods.
<b>Applying</b>	Apply for funding through regional contacts: <a href="https://www.epa.gov/nps/contacts-nonpoint-source-nps-pollution-programs">https://www.epa.gov/nps/contacts-nonpoint-source-nps-pollution-programs</a> .

## Watershed and Flood Prevention Operations Program

### Program Description

<b>Agency</b>	USDA
<b>Description</b>	<p>The Watershed Protection and Flood Prevention Program offers financial and technical assistance for watershed protection, water quality improvements, erosion and sediment control, and habitat enhancement.</p> <p>Learn more: <a href="https://www.nrcs.usda.gov/wps/portal/nrcs/detail/national/programs/landscape/wfpo/?cid=nrcs143_008271">https://www.nrcs.usda.gov/wps/portal/nrcs/detail/national/programs/landscape/wfpo/?cid=nrcs143_008271</a></p>
<b>Historical Funding</b>	FY21: \$175 million FY20: \$150 million FY19: \$150 million
<b>Category</b>	Coastal Hazard, Land Degradation, Riverine Flooding

### Eligibility Requirements

<b>Eligible Applicants</b>	Eligible project sponsors are county agencies, soil and water conservation districts, flood prevention and flood control districts, or other subunits of state government with the authority and capacity to carry out, operate, and maintain installed works of improvement.
<b>Eligible Activities</b>	Watershed and Wildlife Projects: Projects on up to 250,000 acres that provide erosion and sediment control, watershed protection, flood prevention, and water quality improvements.
<b>Cost Share</b>	75 percent federal / 25 percent non-federal
<b>Maximum Funding Potential</b>	—
<b>Minimum Partner Contribution</b>	25 percent

### Application Information

<b>Application Timeline</b>	Continuous; NRCS to review and fund requests as funds are available from 2022 appropriation.
<b>Project Period</b>	Identified by applicant
<b>Applying</b>	<p>To learn more about NRCS's Watershed Protection and Flood Prevention Program, please contact your state's program manager: <a href="https://www.nrcs.usda.gov/programs-initiatives/watershed-programs/nrcs-state-watershed-program-managers">https://www.nrcs.usda.gov/programs-initiatives/watershed-programs/nrcs-state-watershed-program-managers</a>.</p>

## WaterSMART Aquatic Ecosystem Restoration Projects

### Program Description

<b>Agency</b>	U.S. Bureau of Reclamation (USBR)
<b>Description</b>	<p>Through WaterSMART Aquatic Ecosystem Restoration Projects, the USBR leverages federal and non-federal funding to work cooperatively with states, Tribes, and other entities as they study, design and construct aquatic ecosystem restoration projects that are collaboratively developed, have widespread regional benefits, and result in the improvement of the health of fisheries, wildlife, and aquatic habitat through restoration and improved fish passage.</p> <p>Learn more: <a href="https://www.usbr.gov/watersmart/aquatic/index.html">https://www.usbr.gov/watersmart/aquatic/index.html</a></p>
<b>Historical Funding</b>	New in FY 2023
<b>Category</b>	Coastal Hazard, Drought, Land Degradation, Riverine Flooding

### Eligibility Requirements

Applicants eligible to receive an award under this funding opportunity include:

**Category A Applicants:**

- States, Tribes, irrigation districts, or water districts;
- State, regional, or local authorities, the members of which include one or more organizations with water or power delivery authority;
- Agencies established under state law for the joint exercise of powers;
- Other entities or organizations that own a dam that is eligible for upgrade, modification, or removal.
- All Category A applicants must be located in a Reclamation State. The Reclamation States are defined as the following 17 states and five U.S. territories: Arizona, California, Colorado, Idaho, Kansas, Montana, Nebraska, Nevada, New Mexico, North Dakota, Oklahoma, Oregon, South Dakota, Texas, Utah, Washington, Wyoming, American Samoa, Guam, the Northern Mariana Islands, or the U.S. Virgin Islands.

**Category B Applicants:**

- Nonprofit conservation organizations that are acting in partnership with, and with the agreement of an entity described in Category A, with respect to a project involving land or infrastructure owned by the Category A entity. All Category B applicants must be located in the U.S., or the specific U.S. territories identified above.

<b>Eligible Applicants</b>	<p><b>Category A Applicants:</b></p> <ul style="list-style-type: none"> <li>• States, Tribes, irrigation districts, or water districts;</li> <li>• State, regional, or local authorities, the members of which include one or more organizations with water or power delivery authority;</li> <li>• Agencies established under state law for the joint exercise of powers;</li> <li>• Other entities or organizations that own a dam that is eligible for upgrade, modification, or removal.</li> <li>• All Category A applicants must be located in a Reclamation State. The Reclamation States are defined as the following 17 states and five U.S. territories: Arizona, California, Colorado, Idaho, Kansas, Montana, Nebraska, Nevada, New Mexico, North Dakota, Oklahoma, Oregon, South Dakota, Texas, Utah, Washington, Wyoming, American Samoa, Guam, the Northern Mariana Islands, or the U.S. Virgin Islands.</li> </ul> <p><b>Category B Applicants:</b></p> <ul style="list-style-type: none"> <li>• Nonprofit conservation organizations that are acting in partnership with, and with the agreement of an entity described in Category A, with respect to a project involving land or infrastructure owned by the Category A entity. ## WaterSMART Drought Response Program

### Program Description

<b>Agency</b>	USBR
<b>Description</b>	The USBR's Drought Response Program supports a proactive approach to drought by providing assistance to water managers to develop and update comprehensive drought plans and implement projects that will build long-term resilience to drought. Learn more: <a href="https://www.usbr.gov/drought/">https://www.usbr.gov/drought/</a>
<b>Historical Funding</b>	FY22: \$84 million FY21: \$2.9 million FY20: \$2.9 million FY19: \$9 million
<b>Category</b>	Drought

### Eligibility Requirements

#### Drought Resiliency Projects: Tasks A to C

- **Category A Applicants:** States, Tribes, irrigation districts, and water districts; state, regional, or local authorities whose members include one or more organizations with water or power delivery authority; and other organizations with water or power delivery authority.

Category A applicants must be located in the Western U.S. or U.S. territories, including Alaska, Arizona, California, Colorado, Hawaii, Idaho, Kansas, Montana, Nebraska, Nevada, New Mexico, North Dakota, Oklahoma, Oregon, South Dakota, Texas, Utah, Washington, Wyoming, American Samoa, Guam, the Northern Mariana Islands, the Virgin Islands, and Puerto Rico.

- **Category B Applicants:** Nonprofit conservation organizations that are acting in partnership and with the agreement of an entity described in Category A.

Category B applicants must be in the U.S. or one of the U.S. territories identified above.

#### Domestic Water Supply Projects: Task D

A State, Tribe, irrigation district, water district, or other organization with water or power delivery in one of the following states or U.S. territories: Arizona, California, Colorado, Idaho, Kansas, Montana, Nebraska, Nevada, New Mexico, North Dakota, Oklahoma, Oregon, South Dakota, Texas, Utah, Washington, Wyoming, American Samoa, Guam, the Northern Mariana Islands, or the Virgin Islands.

#### Task A: Increasing the Reliability of Water Supplies through Infrastructure Improvements

- System modifications or improvements
- Storing water and/or recharging groundwater supplies
- Developing alternative sources of water supply including water treatment

#### Task B: Increasing the Reliability of Water Supplies through Groundwater Recovery

- Constructing wells to provide back-up water supplies during times of drought
- Constructing extraction wells at groundwater banks or other recharge areas

#### Task C: Projects to Improve Water Management through Decision Support Tools, Modeling, and Measurement

- Developing water management, water marketing, and modeling tools
- Developing new models or improving existing models for analyzing and predicting drought conditions
- Developing water budgets and tiered pricing programs that incentivize decreased consumptive use
- Real-time operational modeling to track supply conditions and demands

#### Task D: Domestic Water Supply Projects for Tribes or Disadvantaged Communities

- Task D projects are for the construction of domestic water supply projects of which the primary purpose is to provide domestic water supplies to Tribal or disadvantaged communities that do not have reliable access to water supplies. This can include the development of new supplies and/or associated infrastructure for treatment and delivery.

## WaterSMART Drought Response Program

### Eligibility Requirements (continued)

**Cost Share**

Tasks A-C: 50 percent federal / 50 percent non-federal  
Task D: 95 percent federal / 5 percent non-federal

**Maximum Funding Potential**

Tasks A-C: \$5 million  
Task D: \$10 million

**Minimum Partner Contribution**

Tasks A-C: 50 percent  
Task D: 5 percent

### Application Information

**Application Timeline**

Application Opening: August 7, 2023  
Application Closing: October 31, 2023

**Project Period**

24 months, from the date of the recipient's award.

**Applying**

Apply for funding using the Grants.gov online system: <https://www.Grants.gov/>, opportunity number: R24AS00007.

## WaterSMART Environmental Water Resources Projects

### Program Description

<b>Agency</b>	USBR
<b>Description</b>	WaterSMART Environmental Water Resources Projects funding supports projects focused on environmental benefits and that have been developed as part of a collaborative process to help carry out an established strategy to increase the reliability of water resources. Learn more: <a href="https://www.usbr.gov/watersmart/ewrp/index.html">https://www.usbr.gov/watersmart/ewrp/index.html</a>
<b>Historical Funding</b>	FY22: \$36.1 million
<b>Category</b>	Coastal Hazard, Drought, Land Degradation, Riverine Flooding

### Eligibility Requirements

#### Category A Applicants:

- States, Indian Tribes, irrigation districts, and water districts
- State, regional, or local authorities, the members of which include one or more organizations with water or power delivery authority
- Other organizations with water or power delivery authority
- All Category A applicants must also be located in one of the following states or U.S. territories: Alaska, Arizona, California, Colorado, Hawaii, Idaho, Kansas, Montana, Nebraska, Nevada, New Mexico, North Dakota, Oklahoma, Oregon, South Dakota, Texas, Utah, Washington, Wyoming, American Samoa, Guam, the Northern Mariana Islands, the Virgin Islands, or Puerto Rico.

#### Category B Applicants:

- Non-profit conservation organizations, including watershed groups as defined in the Cooperative Watershed Management Act, Section 6001(6) (see Section C.3 "Watershed Group Definition"), that are acting in partnership with, and with the agreement of, an entity described in Category A.
- Category B applicants must include with their application a letter from the Category A partner stating that the Category A partner:
  - Is acting in partnership with the applicant
  - Agrees to the submittal and content of the application
  - Intends to participate in the project in some way (e.g., by providing input, feedback, or other support for the project)
- A watershed group is eligible to apply for 50 percent cost shared funding without a Category A partner but must include a Category A partner to be eligible for 75 percent federal funding.
- Letters of Partnership from Category A entities must be submitted with the application for Category B applicants to be eligible. Partners do not necessarily need to contribute cost share funding.
- All Category B applicants must be in the U.S. or one of the U.S. territories identified above, and the Category A partner must be located in one of the following states or U.S. territories: Alaska, Arizona, California, Colorado, Hawaii, Idaho, Kansas, Montana, Nebraska, Nevada, New Mexico, North Dakota, Oklahoma, Oregon, South Dakota, Texas, Utah, Washington, Wyoming, American Samoa, Guam, the Northern Mariana Islands, the U.S. Virgin Islands, or Puerto Rico.

#### Category C Applicants:

- Non-profit conservation organizations submitting an application for a project to improve the condition of a natural feature, such as wetlands on Federal land, without a Category A partner must demonstrate that entities described in Category A from the applicable service area have been notified and do not object to the project.
- Category C applicant documentation must be submitted with the application for Category C applicants to be eligible.
- All Category C applicants must be in the U.S. or one of the U.S. territories identified above.

#### Eligible Applicants

#### Eligible Activities

Wildfire Mitigation; Fire-resistant Structural Retrofits; Soil and Slope Stabilization; and Post-Wildfire Flood Prevention and Sediment Reduction.

## WaterSMART Environmental Water Resources Projects

### Eligibility Requirements (continued)

75 percent federal / 25 percent non-federal for projects that meet the following requirements:

- The project must increase water supply reliability for ecological values. This may include projects that improve the timing or quantity of water available, improve water quality or temperature, or that improve stream or riparian conditions for the benefit of plant and animal species, fish and wildlife habitat, riparian areas, or ecosystems. This does not exclude projects expected to result in benefits to multiple sectors, such as projects or project components that benefit ecological values AND agricultural, municipal, Tribal, or recreational water uses.
- The project must be developed as part of a collaborative process by: (1) a watershed group (as defined in Section 6001(6) of the Cooperative Watershed Management Act) or (2) by a water user and one or more stakeholders with diverse interests.
- The majority of project benefits must be for the purpose of advancing one or more components of an established strategy or plan to increase the reliability of a water supply for consumptive and non-consumptive ecological values.

For projects that do not meet the requirements necessary to qualify for a 75 percent federal cost share contribution, applicants must be capable of cost sharing 50 percent or more of the total project costs.

#### Cost Share

#### Maximum Funding Potential

Up to \$3 million for projects to be completed within three years. Total project costs should not exceed \$6 million.

#### Minimum Partner Contribution

25 to 50 percent

### Application Information

#### Application Timeline

Application Opening: January 24, 2023  
Application Closing: March 28, 2023

#### Project Period

In general, proposed projects should be completed within three years of award. Reclamation will determine the capability of an applicant to complete the proposed project within the timeframe identified in the application.

#### Applying

Apply for funding using the Grants.gov online system: <https://www.Grants.gov/>, opportunity number: R23AS00089.

## WaterSMART Small-Scale Water Efficiency Projects

### Program Description

<b>Agency</b>	USBR
<b>Description</b>	Through the WaterSMART Small-Scale Water Efficiency Projects Reclamation provides 50/50 cost share funding to irrigation and water districts, tribes, states, and other entities with water or power delivery authority for small water efficiency improvements that have been identified through previous planning efforts. Learn more: <a href="https://www.usbr.gov/watersmart/swep/index.html">https://www.usbr.gov/watersmart/swep/index.html</a>
<b>Historical Funding</b>	FY22: \$7 million FY21: \$3 million FY20: \$3.3 million FY19: \$3 million
<b>Category</b>	Drought

### Eligibility Requirements

<b>Eligible Applicants</b>	Category A: States, Indian Tribes, irrigation districts, and water districts; state, regional, or local authorities, whose members include one or more organizations with water or power delivery authority; and other organizations with water or power delivery authority. Category B: Non-profit conservation organizations that are acting in partnership with and with the agreement of an entity described in Category A. Category B applicants must include with their application a letter from the Category A partner, stating that they are acting in partnership with the applicant and agree to the submittal and content of the proposal.
<b>Eligible Activities</b>	Water Efficiency Projects: Projects designed to implement work identified in an applicant's water planning efforts. Example projects include irrigation flow measurement, irrigation efficiency measures, and municipal metering.
<b>Cost Share</b>	50 percent federal / 50 percent non-federal
<b>Maximum Funding Potential</b>	\$100,000
<b>Minimum Partner Contribution</b>	50 percent

### Application Information

<b>Application Timeline</b>	Application Opening: February 24, 2022 Application Closing: April 28, 2022
<b>Project Period</b>	Proposed projects should be completed within 24 months of award.
<b>Applying</b>	Apply for funding using the Grants.gov online system: <a href="https://www.Grants.gov/">https://www.Grants.gov/</a> , opportunity number: R22AS00195.

## WaterSMART Water and Energy Efficiency Grants

### Program Description

<b>Agency</b>	USBR
<b>Description</b>	The WaterSMART Water and Energy Efficiency Grants support projects that conserve and use water more efficiently; mitigate risk in areas of future water conflict; and accomplish other benefits that contribute to water supply reliability in the western United States. Learn more: <a href="https://www.usbr.gov/WaterSMART/weeg/index.html">https://www.usbr.gov/WaterSMART/weeg/index.html</a>
<b>Historical Funding</b>	FY23: \$5 million FY21: \$7.8 million FY20: \$10 million FY19: \$34 million
<b>Category</b>	Drought

### Eligibility Requirements

<b>Eligible Applicants</b>	<p><b>Category A Applicants:</b></p> <ul style="list-style-type: none"> <li>States, Tribes, irrigation districts, and water districts;</li> <li>State, regional, or local authorities, the members of which include one or more organizations with water or power delivery authority; and</li> <li>Other organizations with water or power delivery authority.</li> </ul> <p>All Category A applicants must also be located in the western U.S. or U.S. territories as identified in the Reclamation Act of June 17, 1902, as amended and supplemented; specifically: Alaska, Arizona, California, Colorado, Hawaii, Idaho, Kansas, Montana, Nebraska, Nevada, New Mexico, North Dakota, Oklahoma, Oregon, South Dakota, Texas, Utah, Washington, Wyoming, American Samoa, Guam, the Northern Mariana Islands, the Virgin Islands, and Puerto Rico.</p> <p><b>Category B Applicants:</b></p> <ul style="list-style-type: none"> <li>Nonprofit conservation organizations that are acting in partnership with, and with the agreement of, an entity described in Category A. Category B applicants must include with their application a letter from the Category A partner, stating that they are acting in partnership with the applicant and agree to the submittal and content of the proposal.</li> </ul> <p>All Category B applicants must be located in the U.S., or the specific U.S. territories identified in Category A.</p>
<b>Eligible Activities</b>	<p>Water Conservation Projects: Projects that result in quantifiable and sustained water savings or improved water management.</p> <p>Renewable Energy Projects: Projects that increase the use of renewable energy sources in managing and delivering water and/or projects that upgrade existing water management facilities resulting in quantifiable and sustained energy generation and/or savings.</p>
<b>Cost Share</b>	50 percent federal / 50 percent non-federal
<b>Maximum Funding Potential</b>	\$5 million
<b>Minimum Partner Contribution</b>	50 percent

## WaterSMART Water and Energy Efficiency Grants

### Application Information

#### Application Timeline

Application Opening: May 2, 2022

Application Closing: July 28, 2022

#### Project Period

Projects funded under Funding Group I (up to \$500,000 per agreement) should be completed within 24 months of award

Projects funded under Funding Group II (up to \$2 million per agreement) should be completed within 36 months of award

Projects funded under Funding Group III (up to \$5 million per agreement) should be completed within 36 months of award

#### Applying

Apply for funding using the Grants.gov online system: <https://www.Grants.gov/>, opportunity number: R23AS00008.

## Appendix A: Program Summaries

This table provides summaries of the programs covered in this guide, sorted alphabetically. Application opening and deadline dates are current through the release of this report. For programs that do not have FY 2023 timing, please refer to the program websites. For additional information on any of these programs, view the associated project summary page, in the *Program Information* section.

Program Name & Website	Agency	Climate Hazard	Maximum Project Funding Potential	Minimum Partner Contribution	Application Timeline	Application Contact

## Appendix B: List of Abbreviations and Glossary

Abbreviations	
AMA	Agricultural Management Assistance
BRIC	Building Resilient Infrastructure and Communities
C&CB	Capability and Capacity-Building Activities
CAP	Continuing Authorities Program
CWDG	Community Wildfire Defense Grant
CWPP	Community Wildfire Protection Plans
DCIP	Defense Community Infrastructure Program
DOD	Department of Defense
DOI	Department of the Interior
EPA	Environmental Protection Agency
ESTCP	Environmental Security Technology Certification Program
FEMA	Federal Emergency Management Agency
FLP	Forest Legacy Program
FMAG	Fire Management Assistance Grant
FY	Fiscal Year
HUD	Department of Housing and Urban Development
HMGP	Hazard Mitigation Grant Program
IRA	Inflation Reduction Act
LWCF	Land and Water Conservation Fund
NCRF	National Coastal Resilience Fund
NEMIS	National Emergency Management Information System
NFIP	National Flood Insurance Program
NFWF	National Fish and Wildlife Foundation
NOAA	National Oceanic and Atmospheric Administration
NOFO	Notice of Funding Opportunity
NPSMP	Nonpoint Source Management Plan
NRCS	Natural Resources Conservation Service
OLDCC	Office of Local Defense Community Cooperation
POP	Period of Performance
REPI	Readiness and Environmental Protection Integration Program
TBD	To be Determined
SERDP	Strategic Environmental Research and Development Program
USACE	U.S. Army Corps of Engineers
USBR	U.S. Bureau of Reclamation
USDA	U.S. Department of Agriculture
USFWS	U.S. Fish and Wildlife Service

### Glossary of Climate Hazards

#### Coastal Hazard

Climate impacts relating to the coast, including coastal erosion, flooding, storm surge, etc.

#### Drought

Climate impacts relating to drought, including aridity, water quantity threats, flash drought, etc.

#### Land Degradation

Land degradation climate impacts not covered in the climate categories listed, such as thawing permafrost, major disturbances to landscapes, soil erosion and sedimentation (excluding coastal erosion), etc.

#### Riverine Flooding

Climate impacts relating to riverine flooding.

#### Wildfire

Climate impacts relating to wildfire.
